Sydney Metro West

Out-of-hours work – North Strathfield metro station

9 November 2026

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, transforming Sydney for generations to come. Sydney Metro West will target an opening date of 2032.

Gamuda has been awarded the Stations Package West (SPW) contract to design and construct the five new Metro stations at Westmead, North Strathfield, Burwood North, Five Dock, and The Bays.

Sydney Metro has engaged John Holland to deliver the Linewide package. Delivering 60kms of track across the network, installation of rail systems and construction of Sydney Metro West's 38-hectare stabling and maintenance facility in Clyde.

Upcoming out-of-hours work and traffic changes

To minimise interruption to local traffic and to ensure the safety of motorists, pedestrians and workers around the site, some work must be undertaken outside standard construction hours.

Geotechnical investigations will be carried out between:

- **10pm Monday 16 November to 5am Tuesday 17 November 2026**
- **10pm Tuesday 17 November to 5am Wednesday 18 November 2026**
- **10pm Thursday 19 November to 5am Friday 20 November 2026.**

If the scheduled works cannot be completed during the listed out-of-hours dates above, additional contingency shifts may be scheduled for the following week from 10pm to 5am between Monday 23 November and Friday 27 November 2026.

Some traffic, pedestrian and cycle route changes will be required to support this work. Please refer to the table and map overleaf for more information.

Works will include:

- Setting up of traffic management near investigation locations
- Drilling bore holes with a drill rig and excavating to assess sub-surface conditions
- Removing excess spoil from site using a vacuum excavation truck and disposing offsite
- Reinstating the area after works are completed.

What will this mean for you?

You may notice:

- Workers and vehicles
- Traffic controllers and signage
- Localised presence of dust in work areas
- Noise from machinery and equipment.

Managing our impacts on the community

We aim to manage our work to minimise disruption to the community and the environment and we will:

- Conduct noise monitoring as required
- Use dust suppression measures as required
- Direct lighting towards work areas and away from neighbouring properties

Equipment and machinery used

Equipment for this work will include but is not limited to hand tools, drilling rig, vacuum truck, survey equipment, delivery vehicles, traffic control vehicles and devices, lighting towers, excavator with attachments, light vehicles and utes, trucks and trailers, concrete and circular saws, concrete core cutter and agitator, FWD hammer, street sweepers, cranes and generators.

Updates on work dates, traffic changes and locations will be provided via email and electronic traffic signs. You can subscribe to these updates by emailing: SPWmetro@transport.nsw.gov.au

Please contact us on **1800 612 173** if you have any questions, complaints or would like to provide feedback about the work, including respite periods and lighting during out-of-hours works.

Location of work areas and traffic changes

Date and time	Location	Temporary traffic changes
