

# Notification – Luddenham Road roundabout out-of-hours work

23 April 2024

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the Western Sydney Aerotropolis in the south with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

CPB Contractors and United Infrastructure Joint Venture (CPBUI JV) are completing the surface and civil alignment works contract for Sydney Metro – Western Sydney Airport.

## Out-of-hours work:

Essential work will be carried out to complete the final layer of asphalt and line marking on Luddenham Road, Luddenham for the future station access road roundabout. The out-of-hours work will be carried out over **three nights, 6pm and 5am** between **Tuesday 30 April 2024** to **Friday 10 May 2024**, with a **two-night** road closure commencing at **8pm**, weather depending.

Carrying out this work out-of-hours will minimise impact and safety risks on the local community, road users and our workers.

## Work will include:

- Installation of wearing course (asphalt)
- Installation of line marking and signage
- Relocation and removal of fences and safety barriers
- Restoration of the area on completion.

## What to expect:

- To complete the work safely, a **two-night** road closure will be in place on Luddenham Road, Traffic detours will be via M4 Western Motorway, Northern Road and Mamre Road
- Traffic Control will be onsite, to provide access to Emergency Services if required, through the road closure
- Local traffic is required to follow either Northbound or Southbound detours as access on Luddenham Road will only be provided **up to** the closure point, please drive to the conditions and follow the directions of Traffic Control (see map overleaf)
- Heavy vehicles and machinery will be in use.

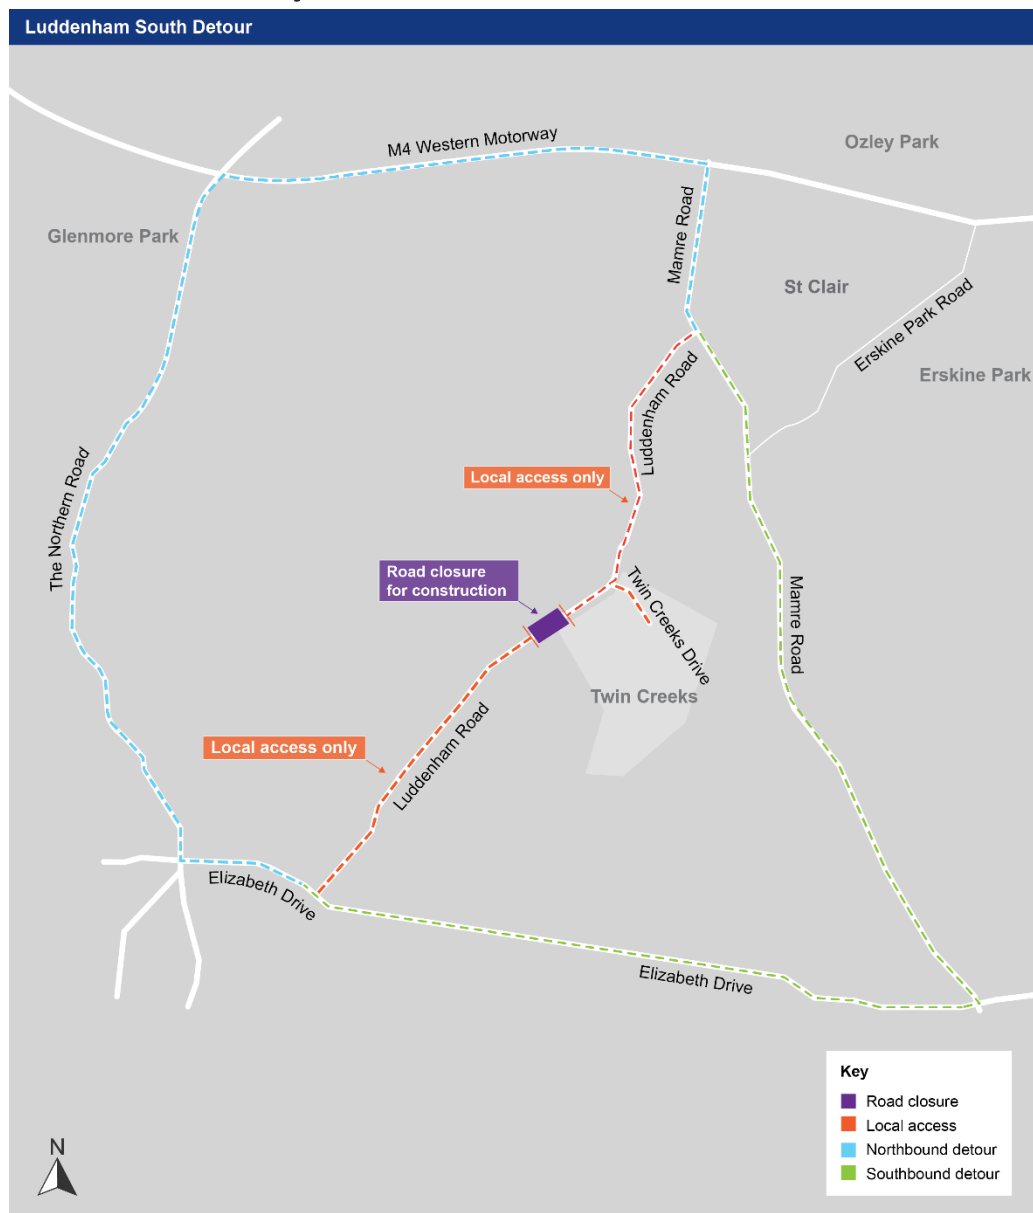

## Equipment used:

Equipment for this work includes but is not limited to traffic control, excavator, road profiler, rollers, heavy machinery, water carts, lighting towers, light and heavy vehicles.

Please see map below showing the work location, road closure and related detours.
