SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS

Cherrybrook – Tree removal including temporary road closure Franklin Road

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia’s biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney’s new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

As part of the new Cherrybrook Station precinct works, widening of Franklin Road between Castle Hill Road and Kayla Way is being undertaken. This work is required so that Franklin Road can become a two way road from Castle Hill Road to Kayla Way. On **Tuesday 24, Wednesday 25, and Thursday 26 July** between **7am and 3.15pm**, tree removal to accommodate the widening of Franklin Road will occur.

The safe removal and trimming of trees requires Franklin Road to be closed between Kayla Way and Castle Hill Road. Refer to map over page. Access to Castle Hill Road from Franklin Road will be via Neale Avenue or John Road. Access to Inala property will be maintained with the assistance of traffic controllers via the Cherrybrook Station site from Castle Hill Road.

To ensure the safety of any wildlife, AMBS Consulting will be in attendance during this work.

What to expect during this activity:

- Traffic and pedestrian management
- Noise from chain saws, elevated work platforms and mulching machines
- Vehicle movements including reversing beepers and flashing lights for the safety of workers

We will manage these impacts by implementing the following:

- Adhere to respite periods during high noise activities
- Implement traffic and pedestrian controls in line with road authorities.

In the event of unforeseen circumstances, machinery breakdown or poor weather conditions, work may be undertaken on the next available days (e.g. Friday 27 July).

Drivers should allow for extended travel times, adhere to reduced speed limits, drive carefully through work zones and follow direction of traffic controllers.

To make a complaint, register for email updates or for more information phone **1800 019 989** (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au, or visit www.sydneymetro.info.

Thank you for your patience and cooperation while we carry out this important work.

Works area and detours

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future — a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable - customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest
