23 July 2018

SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS **Castle Hill Station – Out-of-hours water main connection works**

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia's biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney's new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

For **one to two (1-2) consecutive nights** between **Monday 30 July and Sunday 12 August 2018 from 6pm to 7am**, NRT will undertake out-of-hours water main connection work with the assistance of a Sydney Water sub-contractor (see map overleaf for work locations). These facilities will supply drinking water and fire suppression water to Castle Hill Station.

In the event of wet weather, equipment malfunction or other unforeseen circumstances, the work may be required to be undertaken on the next available nights.

Plant and equipment that may be used throughout the course of this work includes an excavator, a hammer, hand and power tools, a generator and a road saw.

Please note that there will be NO interruption to services for nearby properties.

Why does this work need to happen at night?

This work is being performed out-of-hours in compliance with council and RMS approvals and to minimise disruptions to local traffic.

What to expect:

- Flashing vehicle lights and reversing beepers for the safety of workers
- Construction noise from a road saw and other construction equipment.

We will manage the impacts of these works by undertaking the following:

- Scheduling high noise activities before midnight
- Using non-tonal reversing alarms on equipment, switching off equipment when not in use, and minimising the need to reverse as much as possible
- Positioning temporary lighting to face away from residential properties.

To make a complaint, register for email updates or for more information phone **1800 019 989** (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au, or visit www.sydneymetro.info.

Thank you for your patience and cooperation while we carry out this important work.

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future — a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable - customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest

Translating and Interpreting Services

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to call the Sydney Metro Northwest information line on 1800 019 989.
