SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS **Epping to Chatswood Rail Line – Conversion works including site establishment and rail corridor works**

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia's biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney's new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

In preparation for the upcoming temporary rail shutdown of the Epping to Chatswood Rail Line, site establishment and preparatory rail corridor works will be carried out.

From **Monday 16 July 2018** during standard construction hours from **7am to 6pm on Monday to Friday and 8am to 1pm on Saturday**, site establishment works will be undertaken for approximately **five (5) days** to establish a site compound within the rail corridor near Nelson Street, Chatswood.

Following this, rail corridor works will be undertaken intermittently during standard construction hours, including delivery of materials via the Hopetoun Avenue rail access gate, non-destructive digging using a vacuum truck, and the installation of a services pit and associated pipework using an excavator. The intermittent delivery of materials via this access gate is likely to continue until approximately mid-2019.

What to expect:

- Trucks and other vehicles accessing the Hopetoun Avenue rail access gate
- Intermittent deliveries into the rail corridor via the Hopetoun Avenue rail access gate, including site sheds, toilets and materials for the temporary site compound for the ECRL rail shutdown period
- Intermittent digging, excavating and other similar construction activities
- Construction noise associated with these works.

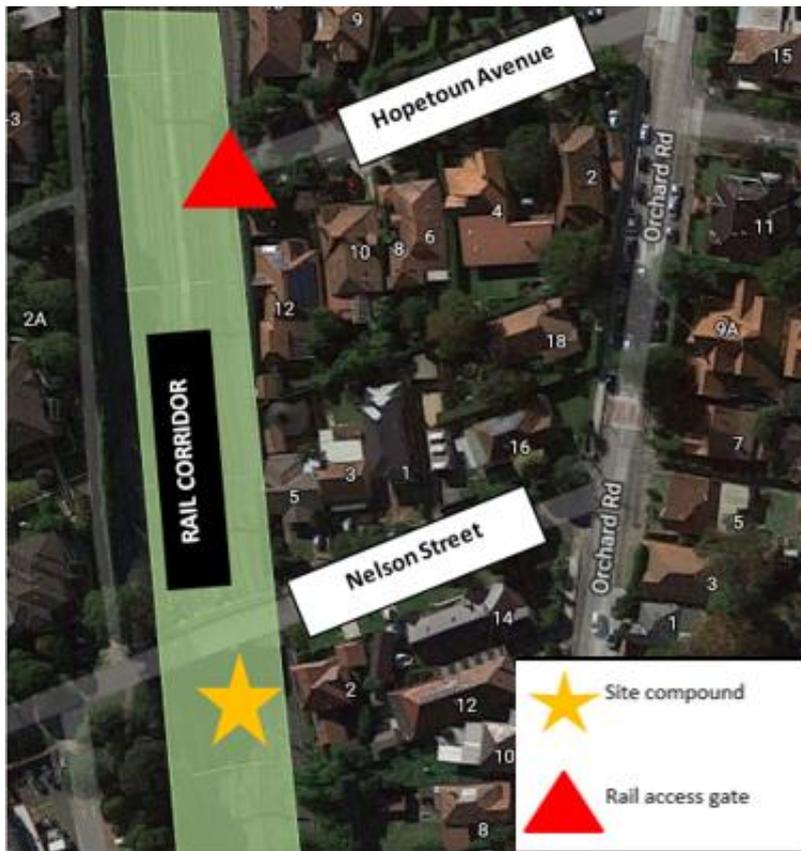

What we will do to minimise the impacts:

- Minimise the need for reversing and the use of non-tonal alarms on vehicles and equipment where possible
- Ensure vehicles are able to promptly pull into designated areas when accessing the site
- Notify residents and businesses of key activities including any out-of-hours work.

To register for email updates, make a complaint or to ask for more information, phone **1800 019 989** (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au or visit www.sydneymetro.info.

Thank you for your patience and cooperation while we carry out this important work.

Map of site and the surrounding area

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future – a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable - customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest

Translating and Interpreting Services

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to call the Sydney Metro Northwest information line on 1800 019 989.
