

9 October 2018

SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS **Epping to Chatswood Rail Line conversion works** **Cambridge Street, Epping – Crane mobilisation and out-of-hours concrete pours**

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia's biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney's new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

On **Monday 15 October** between **5am and 7am** NRT will deliver and mobilise a crane on Cambridge Street Epping as part of conversion works for the Epping to Chatswood rail line (see map overleaf).

The crane will be assembled for approximately **one month** to assist with lowering equipment, materials and machinery into the rail corridor. Where possible the crane use will occur within standard construction hours, however, out-of-hours crane use may occur.

Traffic access to Cambridge Street will be under the management of traffic controllers, please follow all directions and signage.

During this time intermittent out-of-hours concrete pours will be undertaken from Cambridge Street into the rail corridor. More information will be provided to residents affected by these works closer to works occurring.

Activities to be undertaken during this time:

- Site mobilisation works including installation of fencing and barriers
- Intermittent out-of-hours deliveries and removal of machinery and equipment
- Storage and stockpiling of materials
- Construction machinery operating within the compound
- Vegetation removal
- Other general construction activities.

What to expect during these works:

- The use of construction vehicles and equipment including crane and concrete pumps
- Intermittent changes to parking conditions
- NRT vehicles accessing the area by Cambridge Street and Beecroft Road
- Construction noise associated with this work.

What we will do to minimise impacts:

- Minimise the need for vehicles to reverse and the use of non-tonal alarms
- Ensure vehicles promptly pull into designated areas when accessing site
- Provide alternate accommodation to residents affected by high impact noise works.

Works will generally occur between **7am and 6pm, Monday to Friday** and **8am and 1pm on Saturday**. Low impact activities such as deliveries of equipment and materials, running of generators, refuelling machinery and management of environmental controls may occur outside standard construction hours.

To register for email updates, make a complaint or to ask for more information, phone **1800 019 989** (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au or visit www.sydneymetro.info.

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future — a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable - customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest

Translating and Interpreting Services

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to call the Sydney Metro Northwest information line on 1800 019 989.

Korean
