SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS

Bella Vista: Out-of-hours stormwater drain works - Celebration Drive

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia’s biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney’s new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

NRT will commence commissioning stormwater drains along Celebration Drive from the slip lane on Old Windsor Road. Work will occur between **9pm and 5am** over eight nights, between **Monday 17 September** and **Friday 29 September**.

This work requires four nights of out-of-hours work per week with no more than two consecutive shifts.

To minimise disruption to local traffic and in line with approval from relevant road authorities, this work must be conducted outside of standard construction hours.

There will be no impact to local water supply during these works.

What to expect during this activity:

- Plant and machinery including a vacuum truck and excavator
- Construction noise as result of the works, within prescribed limits
- Temporary lighting towers
- Traffic diversions in line with road occupancy approvals.

We will manage these impacts by implementing the following:

- Use of non-tonal reversing alarms on equipment
- Minimise the need for vehicles to reverse
- Position lights to face away from nearby properties
- Implement traffic control in line with road authorities.

In the event of unforeseen circumstances, machinery breakdown or poor weather conditions, work may be undertaken on the next available nights.

Drivers should allow for extended travel times, adhere to reduced speed limits, drive carefully through work zones and follow direction of traffic controllers.

To make a complaint, register for email updates or for more information phone 1800 019 989 (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au, or visit www.sydneymetro.info.

Register your email at www.sydneymetro.info to get the latest project news and invitations to upcoming community events.

Thank you for your patience and cooperation while we carry out this important work.

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future — a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable – customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest

Translating and Interpreting Services

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to call the Sydney Metro Northwest information line on 1800 019 989.
