SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS

Norwest – Norwest Boulevard out-of-hours road works

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia’s biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney’s new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

From **Monday 26 November** between **8pm and 5am** each night, Monday to Friday only, construction on Norwest Boulevard including installation of drainage pits and traffic signals, milling and asphaltting, construction of kerb and gutters and landscaping work will be undertaken. The work is expected to take approximately four weeks, weather depending.

This work needs to be completed at night to minimise impacts to local traffic.

Please see map overleaf for work locations.

What to expect during the work:

- Installation of temporary lighting, concrete barriers and fencing to secure work areas
- Asphaltting, milling and line marking works
- Excavation and backfilling activities
- Construction vehicle movements including flashing lights and non-tonal reversing beepers
- Plant and machinery operating on the road
- Saw cutting/jack hammering if required
- Pedestrian/ cyclists and motorists traffic diversions and temporary speed restrictions in line with road occupancy approvals.

We will manage these impacts by implementing the following:

- Notifying residents and businesses of key activities and major stages of construction
- Use of non-tonal reversing alarms on equipment
- Minimising the need for vehicles to reverse
- Position lighting to face away from neighbouring properties
- Implement traffic and pedestrian controls and signage in line with road authority requirements
- Ensure construction vehicles promptly pull into designated areas when accessing work area
- Schedule high impact activities before midnight where possible.

In the event of unforeseen circumstances, the program of work may be extended.

Drivers should allow for extended travel times, adhere to reduced speed limits, drive carefully through work zones and follow the direction of traffic controllers and signage.

To make a complaint, register for email updates or for more information phone 1800 019 989 (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au, or visit www.sydneymetro.info.

Register your email at www.sydneymetro.info to get the latest project news and invitations to upcoming community events.

Thank you for your patience and cooperation while we carry out this important work.

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future — a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable - customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest

Translating and Interpreting Services

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to call the Sydney Metro Northwest information line on 1800 019 989.
