SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS

Cherrybrook – Out-of-hours station fit out and Castle Hill Road works

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia's biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney's new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

Work to complete station fit out work including the installation of cladding on station platform, and balustrading on the pedestrian bridge crossing above the track will be undertaken on the following dates:

- **Friday 9 November 6pm – 8am**
- **Saturday 10 November 8am – 10pm**
- **Sunday 11 November 8am – 10pm**

Work to construct a footpath and install drainage on Castle Hill Road will be undertaken Monday to Fridays from **Monday 12 November to Friday 23 November** between **8pm and 5am** each night.

Why does this work need to happen at night?

Due to the requirements of the road authorities and to reduce impact on local traffic, these works must be undertaken outside standard construction hours.

What to expect during these works:

- Excavation and backfilling activities
- Use of equipment and machinery including saw cutting and jack hammering if required
- Concrete trucks pouring concrete
- Construction noise associated with these works
- Construction vehicle movements including flashing vehicle lights and non-tonal reversing beepers for the safety of workers
- Lane closures and pedestrian detours as required.

What we will do to minimise impacts:

- High impact work such as use of road saws to be completed by 12am
- Minimise the need for vehicles to reverse
- Construction vehicles pull into designated work area promptly
- Use measures to minimise noise impacts from general plant and equipment such as non-tonal reversing alarms and turning off plant and equipment when not in use
- Position lighting towers away from residential properties.

In the event of unforeseen circumstances, machinery breakdown or poor weather, work will be rescheduled to the next available night/s.

To make a complaint, register for email updates or for more information phone 1800 019 989 (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au, or visit www.sydneymetro.info.

Thank you for your patience and cooperation while we carry out this important work.

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future — a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable - customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest

Translating and Interpreting Services

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to call the Sydney Metro Northwest information line on 1800 019 989.
