

Sydney Metro is a new world-class railway for Sydney. The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia’s biggest public transport project.

Services start in the north west in the middle of 2019 on Australia’s first fully-automated railway, with 13 metro stations and 4000 new commuter car parking spaces. A new generation of metro trains will run every four minutes in the peak in each direction. Customers won’t need a timetable, they’ll just turn up and go.

Sydney’s fast, safe and reliable metro trains are fully-air conditioned with new customer benefits like multi-purpose spaces for luggage and parents with prams, as well as wheelchair spaces and priority seating in each carriage.

As part of preparations for the service, Sydney Metro proposes to change the parking arrangements on Coolinga St, Macquarie Park. The change would mean that instead of a five minute parking zone, no parking would be permitted in this area, Monday to Friday.

A No Parking restriction would allow drivers to stop for up to two minutes, or five minutes if a disabled permit is displayed, to pick up or drop off passengers, providing the driver stays within three metres of their vehicle.

This change would enable Transport for NSW to designate the location as a formal kiss and ride zone that provides a safe, legal location for people to drop off or pick up passengers, without using No Stopping or Bus Zones, as happens presently.

Have your say

Sydney Metro is undertaking public consultation on the proposed change. The outcomes of this consultation will form part of a submission to the City of Ryde Council, who will assess the proposed change.

The community is invited to comment on the proposal **until 5 April 2019**.

The diagram overleaf shows the proposed change.

Community members are invited to submit their feedback on the proposed change by emailing info@metronorthwest.com.au or writing to:
