

Notification – Completion of fencing and hoarding – out of hours work.

Sydney Metro is a new world-class railway for Sydney. The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia's biggest public transport project.

Services start in May 2019 on Australia's first fully-automated railway, with 13 metro stations and 4000 new commuter car parking spaces.

A new generation of metro trains will run every four minutes in each direction in the busiest part of the morning and evening. Customers won't need a timetable, they'll just turn up and go.

Sydney's fast, safe and reliable metro trains are fully-air conditioned with new customer benefits like multi-purpose spaces for luggage and parents with prams, as well as wheelchair spaces and priority seating in each carriage.

The completion of fencing and hoarding works at the development site next to Cherrybrook Station will be undertaken over the weekend, commencing **Saturday 11 May, 2019** and finishing on **Sunday 12 May, 2019**, weather and site conditions permitting.

The work area is shown on the map overleaf.

Works will involve:

- Placement of fencing or hoarding posts
- Placement of timber hoarding or wire mesh

Hours of work

Due to high daytime traffic volumes and the need to ensure pedestrian safety, these works will need to be completed outside of standard construction hours and will occur next **Saturday and Sunday between 8am and 5pm**.

What to expect

- Plant equipment is fitted with non-tonal reversing beepers and equipment will be switched off when not in use.
- The noise from these activities is expected to be minimal.
- Access to buildings and driveways will be maintained at all times.

Thank you for your cooperation while we complete these essential works.
