

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

John Holland CPB Ghella (JHCPBG) is building the 15.5 kilometre long twin railway tunnels between Chatswood and Sydenham and excavating six new metro stations, including one at Barangaroo.

Upcoming work – Barangaroo Station site

Excavation and ground support activities will continue next month at the Barangaroo Station site. So far, about 60 per cent of the station area has been excavated.

Other activities will include installing acoustic covers above the southern half of the excavation area, continued 24/7 barging and concrete pouring inside the rail crossover cavern under Hickson and Dalgety roads.

The table below provides more information about construction hours and activities planned for June 2019, weather and site conditions permitting (see map overleaf).

Location	24/7 activities
Inside acoustic shed – Hickson Road	<ul style="list-style-type: none"> Using the gantry crane to load excavated material into storage containers and/or haulage trucks Deliveries of concrete, machinery and equipment
Crossover cavern - under Hickson and Dalgety roads	<ul style="list-style-type: none"> Roadheader excavation (south of acoustic shed) Moving excavated material from the crossover cavern to the surface stockpile, including managing the surface stockpiles Support rock bolting and concreting activities
Nawi Cove and Barangaroo foreshore	<ul style="list-style-type: none"> Using a concrete pump at surface level near the northern end of the station excavation area to support activities in the crossover cavern Removing excavated material from the Hickson Road access shaft to the site foreshore area Barge operations (including loading barges)
Location	Activities during standard construction hours (Monday to Friday, 7am–6pm and Saturday, 8am–1pm)
Barangaroo Station - Hickson Road (between Dalgety Road bridge and High Steps)	<ul style="list-style-type: none"> Excavating the new Barangaroo Station Jet grouting and rock grouting Installing rock bolts and spraying concrete on the station walls
Location	Activities from 6pm – 5am Monday to Friday
Barangaroo Station - Hickson Road (between Dalgety Road bridge and High Steps)	<ul style="list-style-type: none"> Installing acoustic covers at the southern end of the station excavation area
	<ul style="list-style-type: none"> Drilling ground supports (until 8pm) Installing ground supports (until 10pm) Concreting work, including deliveries (until 10pm)

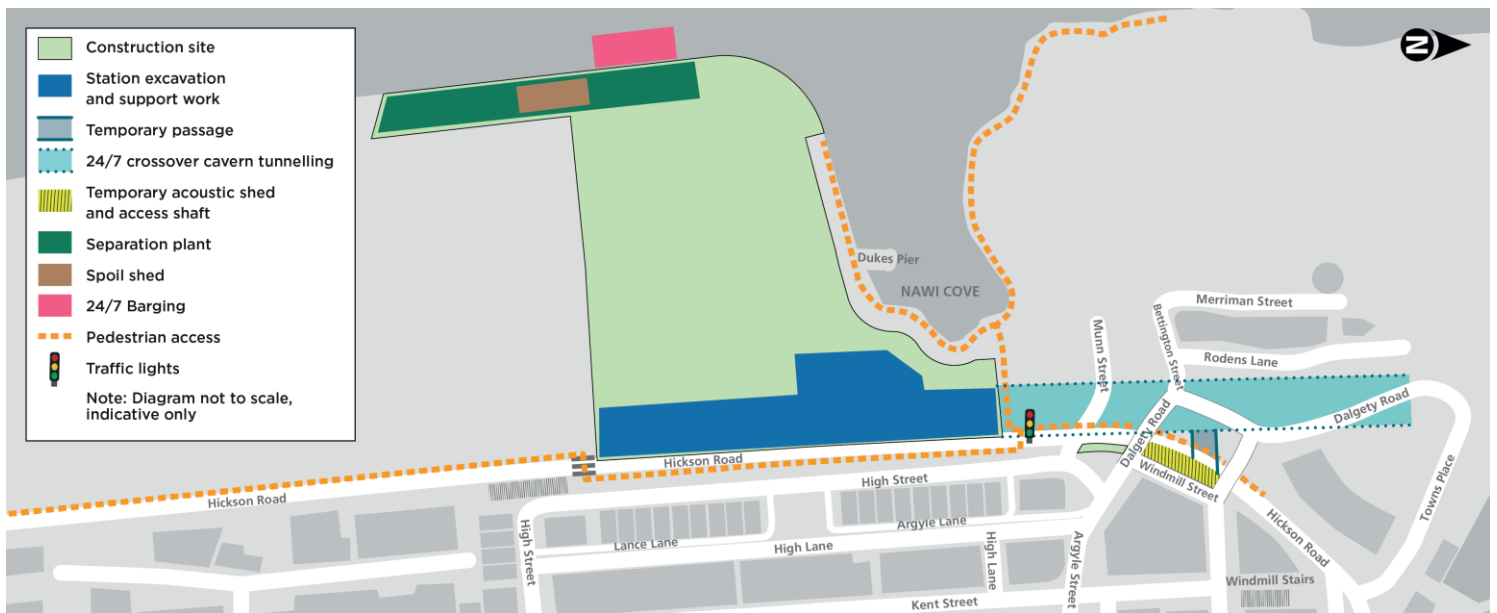

What to expect

- There will be intermittent periods of noisy work. If any high-impact noise activities such as saw cutting and hammering are required at night, they will be carried out as early as possible and will cease before midnight.
- Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.
- Temporary lighting may be used to ensure a safe work site and will be directed away from properties.
- There will be increased light vehicle and truck movements.
- Equipment used includes drills, vacuum excavation trucks, mobile cranes, elevated work platforms, concrete saws, concrete pumps, excavators, rock hammers and compactors.
- There will be temporary single lane closures on Hickson Road during out-of-hours work. Traffic control and directional signage will be in place for the safety of workers and the community.
- Access to the High Steps, Nawi Cove and Barangaroo Reserve will be maintained at all times.
- Access to properties will be maintained at all times.
- Permanent restoration of roads and footpaths affected by the works will be undertaken at the end of the project.

Thank you for your cooperation while we complete this essential work.
