

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms under Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Temporary site office and storage area – Bridge Road, Belmore

Throughout June, Sydney Metro will be establishing a temporary site office and storage area in the existing Sydney Trains facility at Bridge Road, Belmore. This site will be used to support upcoming early work activities for the Bankstown Line metro upgrade project. Activities at this site will continue for approximately 3 months.

Standard working hours

Majority of work at this site will take place during standard construction hours unless otherwise notified. Standard construction hours are Monday to Friday, 7am–6pm and Saturday, 8am–6pm (8am to 1pm inside the corridor).

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work inside the rail corridor will occur outside standard construction hours when trains are not running. Between **2am Saturday 22 June** and **2am Monday 24 June** this site will be used to support out-of-hours work activities inside the rail corridor.

What to expect

- Access and deliveries to the site will be via Bridge Road
- Increased vehicle movements in the area
- Access to buildings and driveways will be maintained at all times
- Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and installing non-tonal reversing beepers on vehicles.

Keeping you informed

Properties close to the rail corridor will receive notifications when work is scheduled to occur. Sydney Trains will deliver notifications for work done during scheduled rail maintenance periods and Sydney Metro will keep you informed of all other work. If you'd prefer to receive updates by email, please contact us using the details below.

Thank you for your cooperation while we complete these essential works.

If you have any questions please contact **Mel** on **1800 171 386** (24 hour community information line) or sydneymetro@transport.nsw.gov.au
