

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

The NSW Government has awarded a \$955 million contract to Laing O'Rourke to deliver the new Sydney Metro platforms under Central Station as well as the landmark Central Walk - a new underground pedestrian concourse to help customers get around Sydney's busiest railway station.

Temporary partial road closure of Randle Lane, Surry Hills

The construction of the new entrance to Central Station at 20-28 Chalmers Street is continuing. Behind this building on Randle Lane, upcoming work will include demolition of the rear façade.

To enable this work, there will be a temporary partial road closure of Randle Lane **from 5 August to 7 August 2019 (7am-6pm)**. [See map overleaf](#).

What to expect

- Randle Lane will remain open for local traffic only.
 - To enable local residents and businesses to access private car park, two-way traffic will be in place from each end of Randle Lane.
 - Residents and businesses are advised to follow directions from traffic controllers to gain access.
 - Other road users should avoid Randle Lane and follow the directions of traffic controllers at all times.
- Randle Lane will be closed to pedestrians and cyclists. Please use pedestrian/cyclist diversion in place.
- Outside of construction hours, Randle Lane will reopen. Usual one-way traffic conditions will apply overnight.
- A lane closure on Randle Street and use of the delivery bay will be required for the delivery and removal of large equipment.
- Traffic control will be located at both entrances to Randle Lane to safely guide local traffic, pedestrians and other road users around the work.
- Building emergency exits onto Randle Lane will be maintained.
- Some construction vehicle movements should be expected into and around Randle Lane, for delivery purposes.
- Due to the nature of the work, some of these activities will be noisy at times. The team will limit these impacts wherever possible.
- Machinery to be used during the week includes excavators and tipper trucks, along with hand and power tools including jack hammers and concrete saws.

Standard working hours

Standard working hours are Monday to Friday, 7am–6pm and Saturday, 8am–1pm.

Out-of-hours work

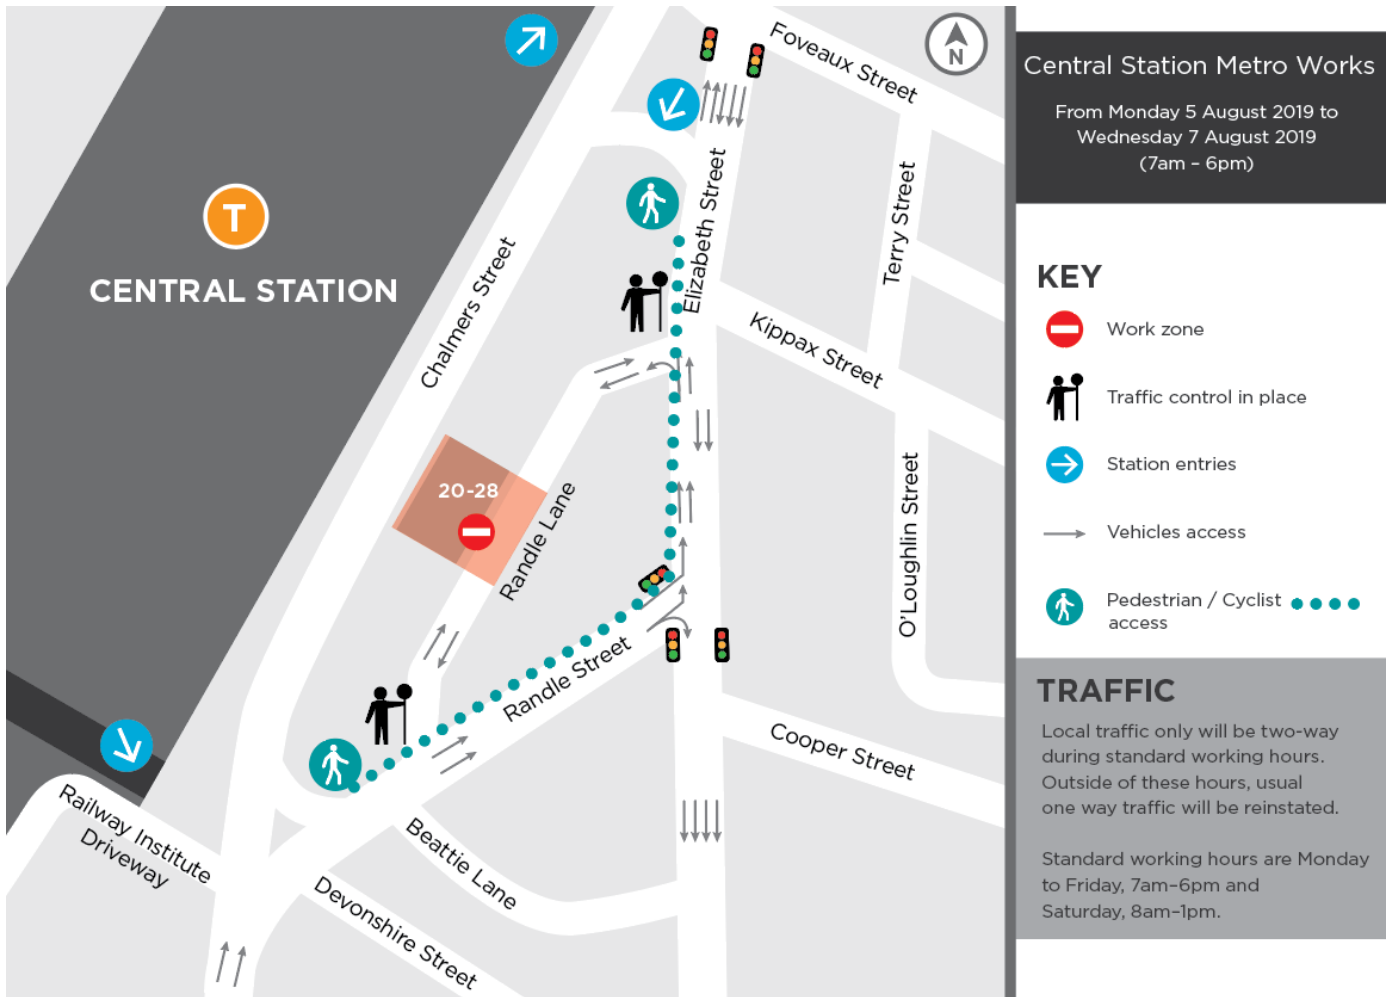

Out-of-hours are Monday to Friday 6pm to 7am, Friday 6pm to Saturday 8am and weekends Saturday 1pm through to Monday 7am.

Thank you for your cooperation while we complete this essential work.
