

NOTIFICATION – PITT STREET SOUTH | 25 NOVEMBER 2019

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

John Holland CPB Ghella (JHCPBG) is building the 15.5 kilometre long twin railway tunnels between Chatswood and Sydenham and excavating six new metro stations, including one at Pitt Street.

Out-of-hours work – removal of survey points from buildings in Pitt Street

Survey points, installed earlier this year to monitor movement during tunnelling, will be removed from buildings in Pitt Street between Bathurst Street and Park Street (see map on next page). This work will take place between 12am and 5am for one night in the week commencing **Monday 2 December 2019**.

Work will involve:

- Setting up and managing temporary traffic and pedestrian changes including footpath diversions and lane closures
- Delivery, use and demobilisation of an elevated work platform
- Use of small hand tools.

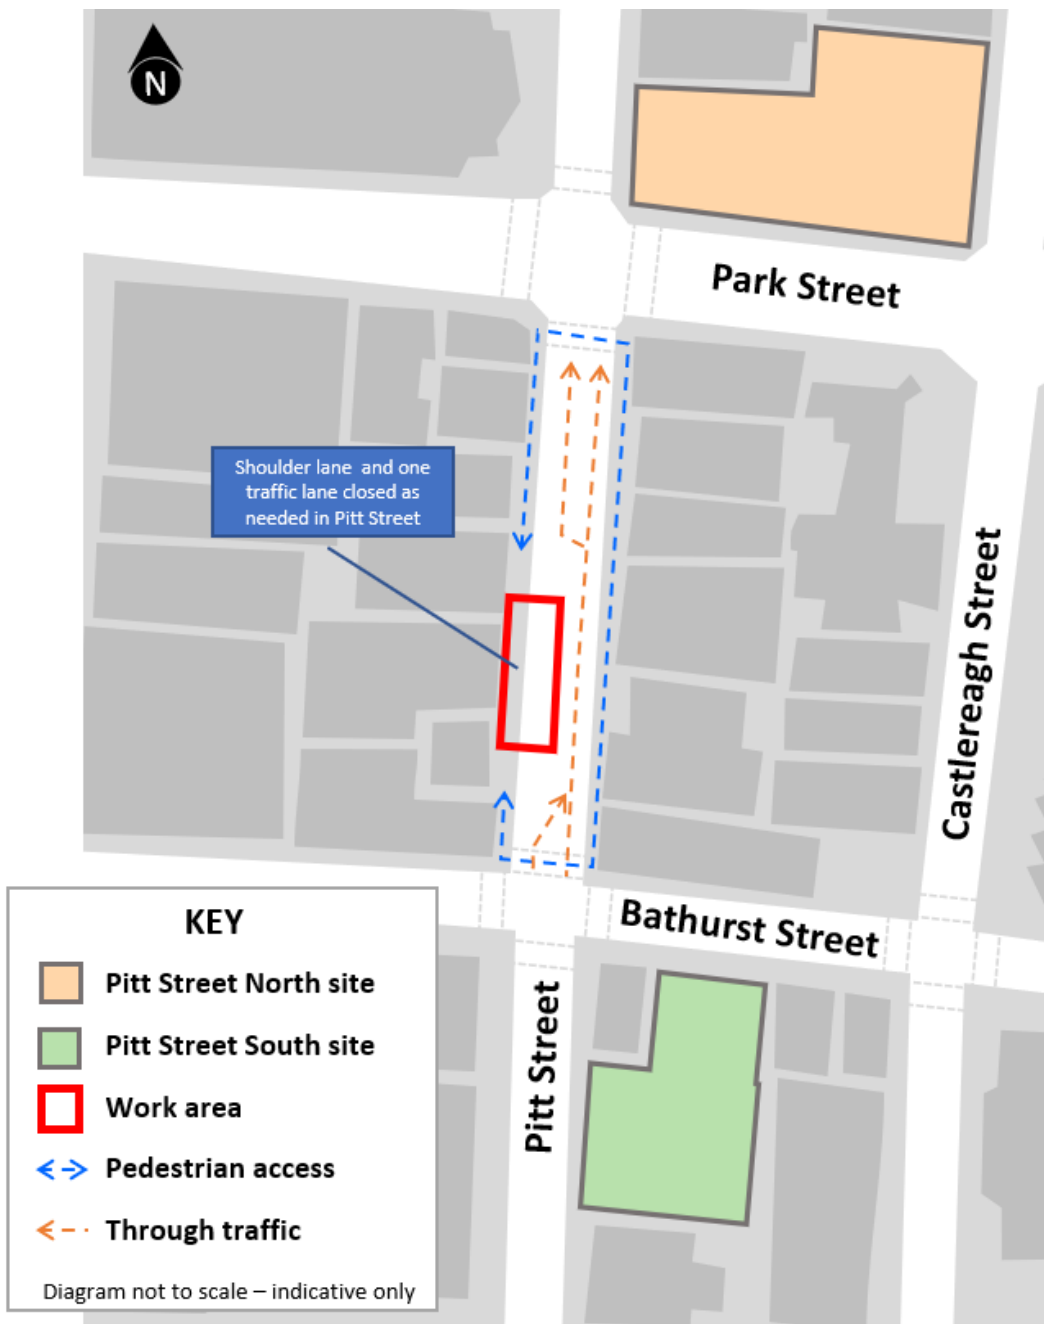

What to expect

- Temporary traffic changes including lane closures in Pitt Street between Bathurst and Park streets. One lane will be maintained for through traffic.
- The pedestrian footpath will be closed with an alternate route provided. Where alternative pedestrian routes are not at traffic lights, traffic controllers will assist pedestrians to cross the road safely.
- Traffic control and directional signage will be in place for the safety of workers and the community.
- Access to properties will be maintained at all times.
- Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.

Thank you for your cooperation while we complete these essential works.

Further details about out-of-hours activities will be provided via regular email updates. If you wish to receive these updates, please email tunnels@transport.nsw.gov.au. If you have any questions please contact **1800 171 386** (24 hour community line) or tunnels@transport.nsw.gov.au.
