

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's north west with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central Station.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Systems Connect (an unincorporated joint venture between CPB Contractors and UGL Engineering) is delivering metro rail track, power systems, communications, signalling systems and infrastructure to turn the excavated tunnels into a working railway between Chatswood and Sydenham.

Power supply investigation – Central Station to Surry Hills

Further investigation is required in some streets. See map overleaf for work areas.

<p>Out of hours work Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when there is less traffic on the roads.</p>	
Date/time	Detail
<p>20 January to 28 February between 9pm and 5am</p>	<ul style="list-style-type: none"> • There will be up to two nights of out of hours work across the following locations: <ul style="list-style-type: none"> ○ Waterloo Street between Kippax Street and Foveaux Street ○ Bellevue Street between Albion Street and Albion Way • Activities involve: <ul style="list-style-type: none"> ○ visual inspections ○ surveying using hand held instruments and ground penetrating radar equipment to check locations of existing utilities ○ removing road base and excavated material with a vacuum truck ○ ground condition testing using a truck mounted drill rig on trailer • Temporary traffic lane closures will be in place during the work • Lights will be directed away from residential properties when not in use • We will advise residents and businesses should any further out of hours work be required.
<p>Day work Project standard working hours are Monday to Friday 7am - 6pm and Saturday 8am - 6pm.</p>	
Location	Detail
<p>Frog Hollow Reserve and Randle Lane, Surry Hills Between 20 January and 28 February</p>	<ul style="list-style-type: none"> • There will be one shift of investigation work to locate existing underground services at the following locations: <ul style="list-style-type: none"> ○ Frog Hollow Reserve ○ The southern end of Randle Lane • Work will involve ground condition testing using a truck mounted drill rig on trailer.

Traffic controls and signage will be in place and access to properties will be maintained. We will take all steps to minimise noise, such as switching off equipment when not in use and using quieter reversing beepers on vehicles. If wet weather prevents the work occurring as planned, we will reschedule it.

Keeping you informed

If you have any questions about this work, or if you'd prefer to receive these updates by email, please contact **1800 171 386** (24 hour community information line) or email sydneymetro@transport.nsw.gov.au

Other work in the Surry Hills area

A new power cable is also being installed in Surry Hills as part of the Transport for NSW Power Supply Upgrade Program. Work is underway during January 2020 in Elizabeth Street and Albion Street. For more information call 1800 684 490, email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/projects. For urgent enquiries or complaints please call the 24-Hour Response Line 1800 775 465 quoting 'Surry Hills to Central Station Feeder Project'.

The Sydney Metro traction power system will be separated and operate independently from the Sydney Trains network. Sydney Metro and Transport for NSW are working closely to coordinate work to minimise inconvenience and disruption.

Thank you for your cooperation while we complete this work.
