

# Notification – Pitt Street Station

July 2020

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 kilometre standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

John Holland CPB Ghella (JHCPBG) is building the 15.5 kilometre long twin railway tunnels between Chatswood and Sydenham and excavating six new metro stations, including one at Pitt Street.

## Upcoming work at Pitt Street Station sites

The main activities at both Pitt Street Station sites this month will include excavation and rock reinforcement, along with permanent lining, formwork and concreting of the main tunnels and pedestrian connections. Demolition work will be completed at the Pitt Street North site.

Standard work hours are Monday to Sunday, 7am to 6pm. Underground activities will use both Pitt Street Station sites for access and will occur 24 hours a day, seven days a week. Deliveries and removal of plant and materials, and staged concrete pours may occur out of hours.

The table below provides more information about activities scheduled during the month, weather and site conditions permitting.

Location	Activities during standard construction hours (7am–6pm Monday to Sunday)
Pitt Street North	<ul style="list-style-type: none"> <li>Excavating, loading and removing excavated material from site via the tunnels</li> <li>Installing ground anchors and support works</li> </ul>
Pitt Street South	<ul style="list-style-type: none"> <li>Excavating, loading and removing excavated material from site</li> <li>Installing ground anchors and support works</li> <li>Constructing a reinforced concrete structural wall on the site boundary</li> <li>Delivering and removing plant, materials and equipment including crane lifts between the deck and the floor of the shaft</li> </ul>
Location	Out-of-hours activities (6pm-7am Monday to Sunday or as noted)
Pitt Street North	<ul style="list-style-type: none"> <li>Inspection of utility services – CCTV inspection of stormwater and sewer mains</li> <li>Delivering and removing oversized plant, materials and equipment</li> <li>Loading and removing excavated material via the tunnels (Monday to Sunday 6am-7am, 6pm-8pm)</li> </ul>
Pitt Street South	<ul style="list-style-type: none"> <li>Modifying hoarding</li> <li>Delivering and removing oversized plant, materials and equipment including crane lifts between the deck and the floor of the shaft</li> </ul>
Location	24/7 activities
Pitt Street North and South	<ul style="list-style-type: none"> <li>Delivering concrete and materials via the tunnels</li> <li>Constructing concrete tunnel linings</li> </ul>

## What to expect

Hammering of rock is proceeding at both sites. A maximum of 6.5 hours high impact noise work is permitted daily. Regular respite periods from high-impact noise will be provided each day. Other work will proceed during respite periods.

### Three month lookahead

Activity (subject to change)	Jul 2020	Aug 2020	Sep 2020
Utilities works	■		
Modifying hoardings	■
