

Bankstown Line metro upgrade

August/ September 2020

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

Sydney Metro will continue to undertake work across its projects in accordance with current Government advice, and will continue to implement physical distancing and travel and hygiene measures to protect employees and members of the community. Continuing with these works is critical to ensuring project continuity, and the project team will continue to review and assess activities in line with any further updates.

Bankstown Line metro upgrade

In June and July, early work will continue along the T3 Bankstown Line between Belmore and Bankstown stations (weather and site conditions permitting). Access to the rail corridor will be via existing rail corridor and pedestrian access gates.

Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and installing non-tonal reversing beepers on vehicles.

Day work

- Work will be carried out during **project standard construction hours Monday to Friday 7am - 6pm and Saturday 8am - 6pm.**

Location	Detail
Whole rail corridor (Belmore to Bankstown)	<p>Activities will include:</p> <ul style="list-style-type: none"> • Locating and confirming underground services which will involve using hand held equipment and non-destructive digging close to and inside the rail corridor • Site/ geotechnical investigations and soil assessments • Tree assessments and topographic/ scanning surveys in the rail corridor, at stations and in nearby public areas • Non intrusive pipe inspections on station platforms between Belmore to Bankstown

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running.

Date/ time	Detail
Weeknights	Activities along the rail corridor from Belmore to Bankstown will include: <ul style="list-style-type: none"> • Site/geotechnical investigations and topographic surveys inside the rail corridor, on station platforms and in nearby public areas • Locating and confirming underground services close to and inside the rail corridor

Equipment used for all the above work will include vacuum trucks, medium rigid trucks and hand tools. Access to buildings and driveways will be maintained at all times. Where temporary footpath or lane closures are required, signage and traffic control will be in place for the safety of pedestrians and motorists.

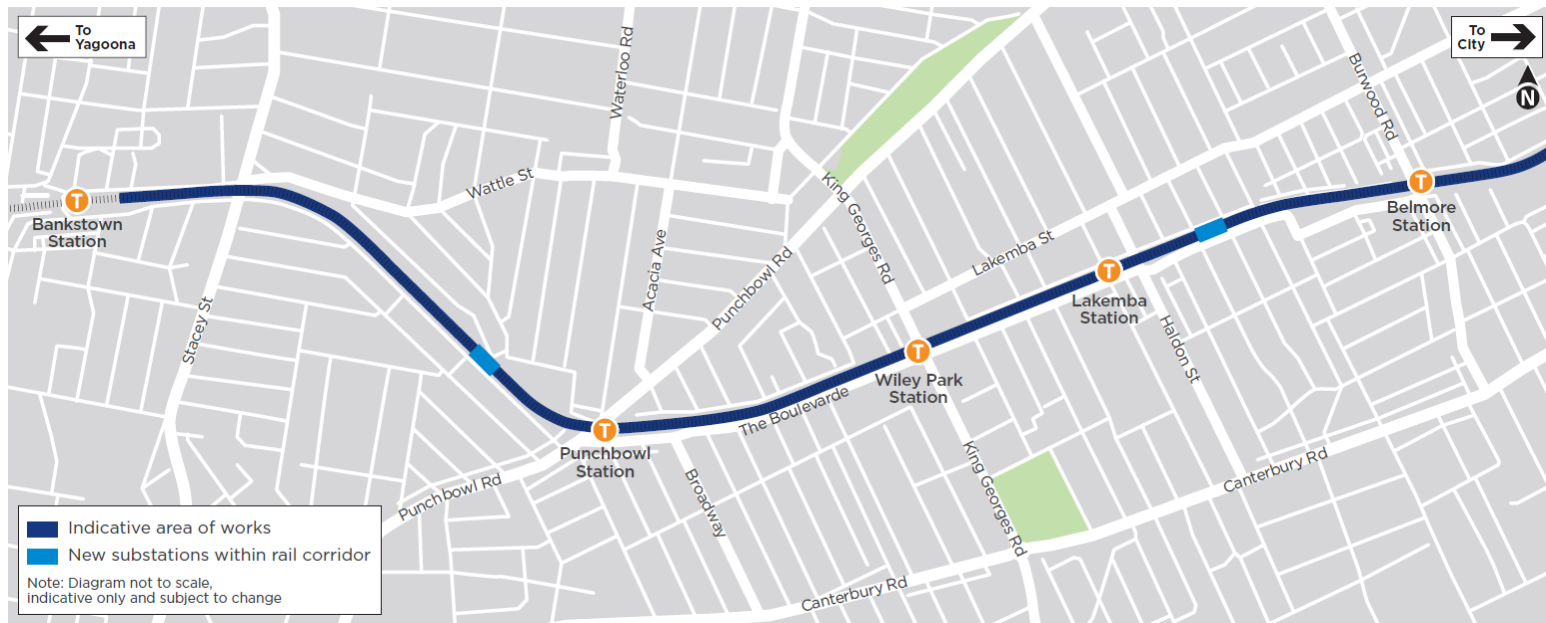

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. Sydney Trains will deliver notifications for work done during scheduled rail maintenance periods and Sydney Metro will keep you informed of all other work.

If you'd prefer to receive updates by e-mail, please contact us using the details below. If you have any questions about the **substations** please contact us and ask for **Grace**. For **all other works please ask for Melanie**. You can contact us on **1800 171 386 (24 hour community information line)** or e-mail
