Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

John Holland CPB Ghella (JHCPBG) is building the 15.5 kilometre long twin railway tunnels between Chatswood and Sydenham and excavating six new metro stations.

**Out-of-hours work – Line marking removal**

Temporary line markings on Castlereagh Street are planned to be removed during the night on **Sunday 16 August 2020**. The line markings were in use while the orange water barriers were in place.

The work will take approximately four hours and involve water blasting. The water barriers will also be removed. This work will be undertaken from 8pm when traffic and pedestrian movements are low. Work is expected to be finished by midnight.

**Work will involve:**

- Establishing a temporary single traffic lane closure
- Use of a small generator to run the water blaster
- A small truck mounted crane to lift the water barriers.

**What to expect**

- Temporary traffic changes including single lane closures will be made. Access will be maintained for through traffic to pass around the work site.
- Traffic control and directional signage will be in place for the safety of workers and the community.
- Pedestrian footpaths may be partially closed for short periods but no full footpath closures are anticipated.
- Some of these activities may be noisy. The project team will limit these impacts wherever possible.
- Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.
Thank you for your cooperation while we complete these essential works.

If you have any questions or would like to register to receive regular updates, please contact Glenda Hewitt on 1800 171 386 (24-hour community information line) or email tunnels@transport.nsw.gov.au
