

Monthly Update - Sydenham Station

November 2020

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

John Holland Pty Ltd and Laing O’Rourke Australia Construction Pty Ltd have been awarded the contract for major railway work at Sydenham as part of Sydney Metro, including the upgrade of Sydenham Station.

Upcoming Work

Work to upgrade Sydenham Station to metro standards is underway with work zones set up on Sydenham Station Platforms 4, 5 and 6 as well as Burrows Avenue, Bolton Street, Railway Parade and Garden Street. The following activities will be undertaken during standard construction hours - Monday to Friday (7am to 6pm) and Saturday (8am to 1pm).

- Removal of the Sydney Water culverts adjacent to the rail corridor
- Construction of the Sydney Metro service buildings along the new station plaza (Railway Parade).

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for transporting oversized vehicles.
