

# Notification – Parramatta

4 December 2020

## Sydney Metro is Australia's biggest public transport project.

New metro rail will become the fastest, easiest and most reliable journey between the Sydney and Parramatta CBDs. Sydney Metro West will service the key precincts of Greater Parramatta, Sydney Olympic Park, The Bays and the Sydney CBD.

Metro services started in 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. Sydney Metro includes new underground CBD stations at Barangaroo, Martin Place and Pitt Street with new metro platforms under Central.

In 2024, Sydney Metro will have 31 stations on a new 66km standalone metro rail system – the biggest urban rail project in Australian history with ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

### Site survey: Parramatta (Standard construction hours and out-of-hours)

Non-intrusive survey work will be undertaken by Sydney Metro West in Parramatta CBD to assist with early planning and design. Please see map overleaf for the location of these works.

**Out-of-hours** survey work is expected to start on **13 December for up to six weeks**, weather and site conditions permitting. Work is being done Sunday to Thursday between 7.30pm to 5am.

**Standard construction hours** survey work is expected to start on **14 December for up to five days**, weather and site conditions permitting. Standard construction hours are Monday to Friday 7am-6pm and Saturday 8am-1pm

#### Work will involve:

- External visual assessments of buildings and structures
- Photography and recording of measurements
- Visual inspection of utility covers
- Tracing of underground services and surveying.

#### What to expect:

- Noise from these activities is expected to be minimal
- Access to pathways and buildings will be maintained at all times.

#### Equipment used:

- Equipment used for this work includes but is not limited to hand held instruments, utility detection equipment and tripod mounted equipment.
