

Notification – Burwood North

24 December 2020

Sydney Metro is Australia's biggest public transport project.

New metro rail will become the fastest, easiest and most reliable journey between the Sydney and Parramatta CBDs. Sydney Metro West will service the key precincts of Greater Parramatta, Sydney Olympic Park, The Bays and the Sydney CBD.

Metro services started in 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. Sydney Metro includes new underground CBD stations at Barangaroo, Martin Place and Pitt Street with new metro platforms under Central.

In 2024, Sydney Metro will have 31 stations on a new 66km standalone metro rail system – the biggest urban rail project in Australian history with ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Site survey: Burwood North

Essential non-intrusive survey work is being undertaken by Sydney Metro West. This work is required to inform the current land topography and assets to assist with early planning and design surrounding the proposed metro station at Burwood North. Work is expected to commence on **Monday 11 January 2021 and continue for three days**, (weather and site conditions permitting). All work will be undertaken in standard construction hours (Monday to Friday 7am to 6pm). Please see the map overleaf for the work location.

Work will include:

- Survey of existing site conditions using traditional survey equipment
- External visual assessments of building and structures
- Photography and recording of measurements.

What to expect:

- This work is not expected to be noisy
- Access to pathways and buildings will be maintained at all times
- No images will be taken of private property.

Equipment used:

Equipment used for day work includes but is not limited to; hand held survey tools, Survey equipment mounted on tripods and light vehicles.
