

Project update

March 2021

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 kilometre standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Lendlease will deliver the new Sydney Metro Victoria Cross integrated station development at North Sydney, including the metro station, commercial building above and enhancements to pedestrian connections, retail and public spaces.

Upcoming work – Victoria Cross Station sites

Below is an indicative table of activities scheduled at the two Victoria Cross Station sites in March.

Location	Work in March
Victoria Cross Station South site	<p>Work may include but is not limited to:</p> <ul style="list-style-type: none"> • detailed excavation works including saw cutting rock and jackhammering • watermain/stormwater upgrade works • spoil removal via Denison Street • installing hoardings and site accommodation surrounding the project site bordering Miller and Berry streets • installing scaffolding within the site to create safe access for onsite workers • delivering and modifying site accommodation • waterproofing works within sites • installation of electrical infrastructure cabling along Berry Street • installation of tower cranes and hoists including ground improvement piling works • tower crane and hoist operations • concrete pouring via concrete pumps within project work zones

*contingency dates if required

Victoria Cross North and South site location

What to expect:

- Equipment used will include road saws, vacuum trucks, concrete pumps, elevated working platform, mobile cranes, a tower crane, truck and dogs, hand held drills and light vehicles.
- Traffic control and direction signage will be in place for the safety of workers, pedestrians and the community.
- Some of these activities will be noisy. The project team will limit these impacts where possible. Non-tonal reversing beepers will be used. Workers will be instructed to keep noise to a minimum.
- Access to buildings and driveways will be maintained at all times.

Thank you for your cooperation and understanding while we complete this essential work.
