

Monthly update – Central Station

May 2021

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Laing O'Rourke is delivering the new Sydney Metro platforms under Central Station as well as the landmark Central Walk - a new underground pedestrian concourse to help customers get around Sydney's busiest railway station.

Central Station and 20-28 Chalmers Street site — Upcoming work

Work will continue in the following areas (subject to approval):

Station box (under former Platforms 13-15) and Sydney Yard

- Excavating station box, shotcreting, waterproofing, loading out of excavated materials and installing new concrete foundation slabs (24/7*, see overleaf).

Central Walk

- Excavating for Central Walk, shotcreting, loading out of excavated materials and installing new concrete beams underneath Platforms 16-23 (24/7*, see overleaf)
- Excavating within hoarded work zones on Platforms 16-23, platform surface excavation and retiling during rail possession weekends
- Installing new escalators within hoarded work zones on Platforms 16-23
- Delivering materials and installing new Customer Service Attendant rooms within hoarded zones on Platforms 16-23.

New Chalmers Street entrance (20-28 Chalmers Street site)

- Installing scaffold ahead of constructing the new building structure.
- Delivering materials and equipment, concreting and lifting items using the tower crane.

Upper and lower Northern Concourse

- Re-levelling floor slab, concreting, reinforcing beams, installing steel columns and posts, fencing and balustrades and props. Demolishing columns, the former lift and floor slab, and walls within hoardings on upper and lower Northern Concourse.
- Installing services, glazing and finishing works on the new roof canopy
- Cleaning sandstone and brick buildings and ongoing restoration works
- Tiling throughout the upper and lower Northern Concourses.

Around the station

- Installing new services within the Eastern Suburbs Railway (ESR) Concourse and within the 'ghost platforms', which will include moving and delivering materials to and around station
- Diverting and removing existing services cables and installing new services cables in pedestrian tunnels, upper and lower Grand Northern Concourse, ESR Concourse and Southern Concourse

- Demolishing works within the ESR Concourse hoarded work area. The temporary ramp will remain open at all times
- Installing services within the rail corridor, near Lee Street substation, Darling Harbour Goods Line and Mortuary Station, and in the Railway Institute Driveway
- Demolishing, scaffolding and concreting works within, and at the entry to, an existing services room on the western side of the Eddy Avenue forecourt.
- Installing scaffold around the Eddy Avenue station entrance for cleaning and ongoing restoration works. The scaffold will be delivered and installed overnight. A small laydown area will be set up to the west of the entrance
- Delivering materials, services investigations, services diversions and relocations, surveying, monitoring around the station and using pedestrian tunnels.

Due to the nature of some activities, to minimise impacts to customers and for the safety of workers, **some of this work will occur outside standard construction hours and when trains are not running.**

Central Station — Upcoming weekend work in May

Friday 30 April to early Monday 3 May (24 hours a day) the following work will occur:

- Testing and commissioning activities within the Lee Street Substation.

Friday 14 May to early Monday 17 May (24 hours a day) the following work will occur:

- Working on Platforms 20-21, including installing services at the north end, re-levelling, concreting mid platforms, glazing and cladding new guard rooms and painting at the south end. This work will include saw cutting, rock breaking, and the installation of a new temporary hoarding area mid platform. Some sections of these platforms will reopen with a temporary brushed top surface.

Monday 17 May to early Friday 21 May (overnight each night from 10pm to 4am) the following work will occur:

- Installing services in the ceiling on Platform 25. The work area will be delineated from Platform 24 during this time.

Friday 21 May to early Monday 24 May (24 hours a day) the following work will occur:

- Working on Platforms 22-23, including installing services and cleaning at the north end, re-levelling, concreting, modifying canopy mid platform and painting at the south end. This work will include saw cutting, rock breaking and installing a new temporary hoarding area mid platform. Some sections of these platforms will reopen with a temporary brushed top surface
- Working on Platforms 20-21, including cleaning at the northern end
- Changing the timber hoarding configuration on the lower Northern Concourse adjacent to the Eddy Avenue station entrance. A section of the lower concourse will be closed to accommodate the changes. The Eddy Avenue station entrance will have reduced number of ticket gates during this time. There will be four standard gates and one accessible ticket gate open only, located on the north / left hand side of the ticket gateline
- There will be closures of the paid area on the Grand Northern Concourse, lift, escalators and stairs during this time. Please follow directions of station staff.

What to expect

- * Excavation and load out of excavation materials at the Central Station Metro site occurs 24 hours a day, seven days a week.
- Changes to the configuration of timber hoarding on the upper and lower Northern Concourses, as well as on Platforms 16-23. Please follow directions of station staff.
- To follow a specific sequence during rail possession weekends, there will be high noise impact activities undertaken at nights on Platforms 16-23 during the **weekend of 15-16 May and 22-23 May 2021.**
- At times, construction works will be noisy. To minimise noise, high-noise generating activities are scheduled (where possible) during daytime hours.

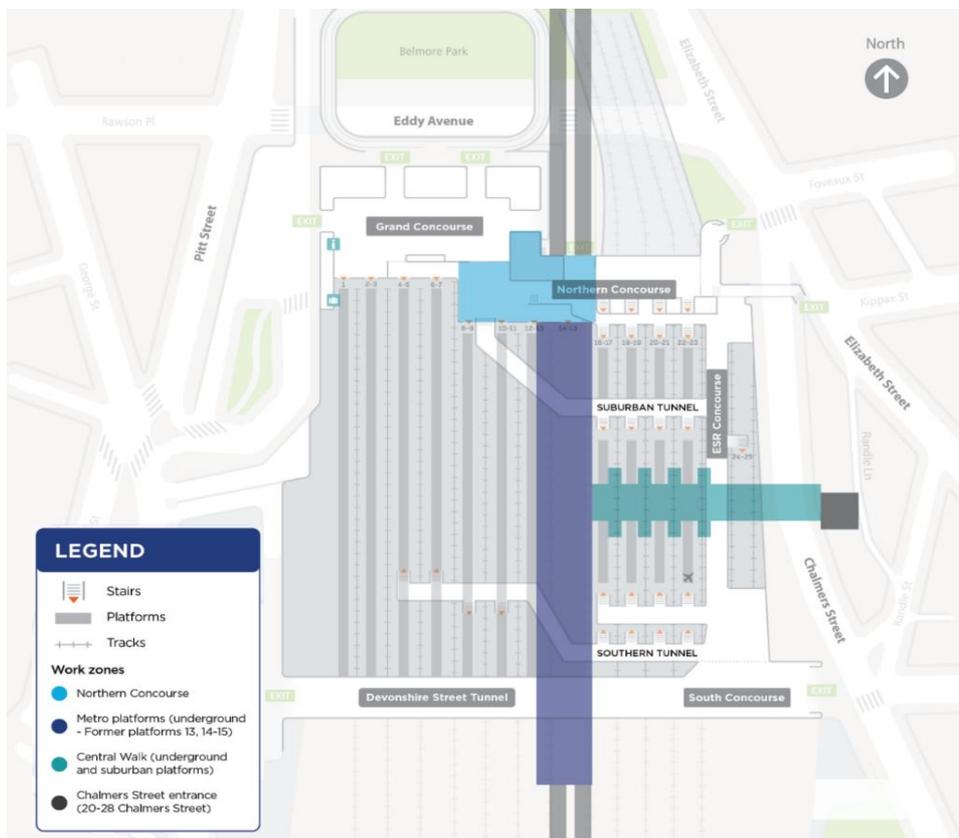

- The Suburban Tunnel remains closed. Diverted access is from the lower Northern Concourse – please follow signage and directions of station staff.
- Noise generated by various work activities may be heard while moving around the underground concourses and tunnels within the station.
- Overnight deliveries on the Eddy Avenue station forecourt with short term overnight closures of the station entrance. Alternative access will be provided under the station colonnade (west side of Eddy Avenue station forecourt).
- Machinery will include crawler cranes, tower crane, rig, excavators, vacuum trucks, elevated works platform, hirail equipment, concrete trucks, water cart, tipper trucks and construction vehicles, hand and power tools including jackhammers and concrete saws.

Site access

- Spoil removal, machinery, oversize deliveries and material deliveries are made via Sydney Yard Access Bridge (SYAB), Regent Street.
- Some vehicles, including high-rail vehicles, access the rail corridor via Chalmers, Elizabeth and Gibbons Street entrances.
- Oversize deliveries arrive out of standard hours on weeknights and weekend nights and require temporary lane closures, pilot vehicles and traffic control to enter SYAB. One traffic lane on Regent Street, residential parking and side streets will remain open during deliveries.
- Deliveries to the loading dock off Pitt Street, Ambulance Avenue and the Lee Street substation may occur each evening and overnight.
- Vehicles and deliveries will access site at 20-28 Chalmers Street via Randle Lane and at Railway Institute Driveway. At times during the month, there will be delivery and removal of large equipment on Randle Street and Railway Institute Driveway. This may be outside of standard construction hours.
- Some vehicles, including high-rail vehicles, access the rail corridor via Chalmers, Elizabeth and Gibbons Street entrances.

Thank you for your patience while we undertake these necessary works. Please register for email updates at sydnymetro.info for further information, or contact us on **1800 171 386** or via centralstationmetro@transport.nsw.gov.au.

Other Sydney Metro work in Surry Hills

Another Sydney Metro contractor, Systems Connect, is also working in Surry Hills.

Systems Connect (an unincorporated joint venture between CPB Contractors and UGL Limited) is delivering line-wide work to turn the excavated tunnels into a working railway between Chatswood and Sydenham. Line-wide work also includes the permanent systems, services and buildings required for Sydney Metro operations between Chatswood and Bankstown.

Surry Hills power supply upgrade

Systems Connect is installing a new underground power cable from the Ausgrid substation at Surry Hills to Central Station. The cable will then run inside the metro tunnel and connect to a new underground power substation at Waterloo. The power supply is required for the new metro train system.

The power cable is being installed underneath the road to minimise impacts to properties. The cable route travels under Randle Lane, Elizabeth Street, Foveaux Street, Belmore Street, Albion Street, Bellevue Street, Albion Way and through part of Frog Hollow Reserve.

The community team at Systems Connect is providing impacted residents with more information on this work. If you have any questions, please call **1800 171 386** and quote 'Linewide' or 'Systems Connect' or email LinewideMetro@transport.nsw.gov.au
