

Sydney Metro is Australia's biggest public transport project.

New metro rail will become the fastest, easiest and most reliable journey between the Sydney and Parramatta CBDs. Sydney Metro West will service the key precincts of Greater Parramatta, Sydney Olympic Park, The Bays and the Sydney CBD.

Metro services started in 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. Sydney Metro includes new underground CBD stations at Barangaroo, Martin Place and Pitt Street with new metro platforms under Central.

In 2024, Sydney Metro will have 31 stations on a new 66km standalone metro rail system – the biggest urban rail project in Australian history with ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Site Utility Investigations: Lenore Drive, Eastern Creek

Essential geotechnical and utility investigation work is being undertaken by Sydney Metro West at Lenore Drive, Eastern Creek to assist with early planning and design work for an additional offsite pre-cast facility. This work is required to determine underlying rock conditions and confirm the location of underground infrastructure.

Please see map overleaf for information on work location. This work is expected to commence on **Monday 3 August 2020 for a period of up to three weeks** (weather and site conditions permitting). Work is being done during standard construction hours Monday to Friday 7am-6pm and Saturday 8am-1pm.

Work will include:

- Establishing a temporary site with site fencing
- Using a truck mounted drill rig to bore below ground level
- Excavating trenches and recording underground infrastructure locations
- Removing spoil from site using a vacuum excavation truck
- Reinstating the area at completion of the work.

What to expect:

- Noise impact from these activities is expected to be minimal
- Traffic control and directional signage will be in place for the safety of workers and the community
- Access to pathways, buildings and driveways will be maintained at all times
- There will be no impact to utility services in the area.

Thank you for your cooperation while we complete these essential works.

Utility Investigation Work Area at Eastern Creek

If you have any questions or would like to receive updates by email, please contact your local Place Manager Anu Malaviya. Anu will be your main contact regarding the project.
