

Notification - Silverwater

5 July 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Stations have been confirmed at Westmead, Parramatta, Sydney Olympic Park, North Strathfield, Burwood North, Five Dock, The Bays, Pyrmont and Hunter Street in the Sydney CBD.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Geotechnical Investigations: Silverwater

Essential geotechnical investigation work will be undertaken by Sydney Metro on vacant land at the corner of Derby Street and Silverwater Road. This work is required to determine the ground conditions to inform early design work for Sydney Metro West.

This work is expected to commence on **12 July for a duration of two weeks**, weather and site conditions permitting. Work is being done during standard construction hours Monday to Friday 7am-6pm and Saturday 8am-1pm. Please see map overleaf for the location of these works.

Work will involve:

- Survey work and marking out utility locations
- Using a truck mounted drill rig to bore below ground level
- Removing spoil from site using a vacuum excavation truck
- Reinstating the area at completion of the work.

What to expect:

- The work will generate some noise but impact is expected to be minimal
- Access to pathways and buildings will be maintained at all times
- Parking may be temporarily restricted in some locations
- Traffic management may be in place to enter and exit the site
- There will be no disruption to the delivery of utility services.

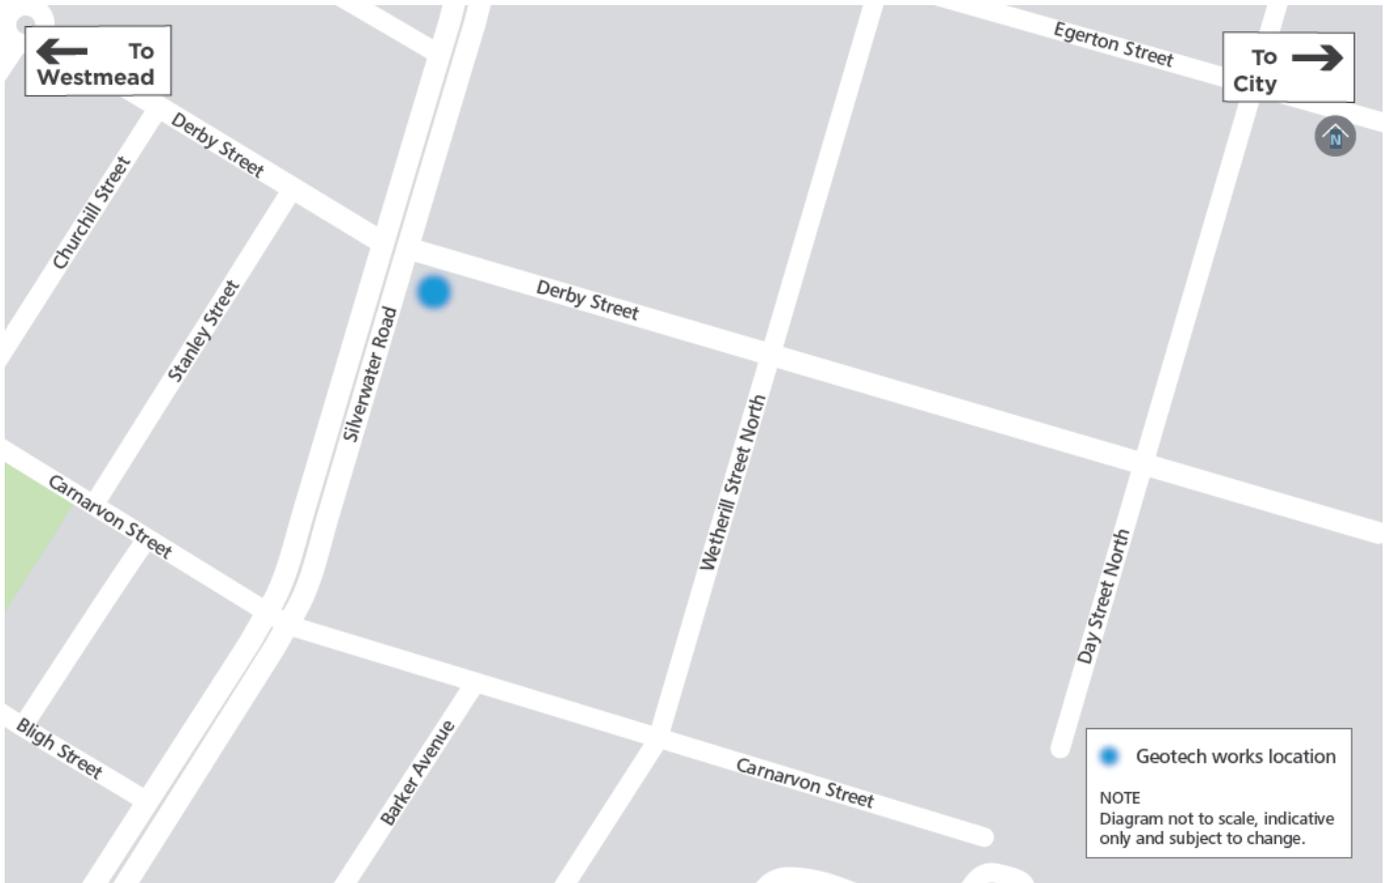

Equipment used:

Equipment used for this work includes but is not limited to: drill rig, specialised ground penetrating equipment, vacuum trucks, hand tools, temporary fencing if required, light vehicles and generators.

Changes to traffic pedestrian and cyclist routes:

During the work, traffic control may be used to assist motorists, pedestrians and cyclists with any changes to traffic conditions.
