

Notification – Burwood North Station site

22 November 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Acciona Ferrovia Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including Burwood North Station.

Utility disconnection work: Burwood North Station site

The tunnelling contractor, AFJV, will disconnect existing utility services to Sydney Metro owned properties within the Burwood North Station site prior to demolition starting in January next year (see map overleaf).

Work will be carried out on Burton Street and Burwood Road from **Monday 29 November 2021** and is expected to continue for **up to two (2) weeks** (weather and site conditions permitting) during standard construction hours:

- Monday to Friday 7am – 6pm and Saturday 8am – 1pm

The safety of the community and our workforce is our top priority. All work will be undertaken in line with NSW Public Health Orders, using a range of COVID-safe measures and plans.

The work will include:

- Saw cutting narrow trenches in concrete or asphalt and removing material with a vacuum suction truck to expose and disconnect any existing underground power, water, gas and sewer utilities
- Removal of overhead electricity and telecommunications cables running to the properties
- Reinstating the area after work is complete
- Workers will temporarily use Sydney Metro owned properties for amenities and parking.

What to expect:

- There will be some noise associated with this work but we will try to minimise this as much as possible
- High intensity noisy work such as concrete cutting or jack-hammering will not start before 8am
- Noise curtains will be in place to minimise disturbance
- **There will be no disruption to the supply of utility services to your property**
- Property access will be maintained at all times
- Temporary loss of on-street parking spaces next to the work site during work hours.

Equipment used:

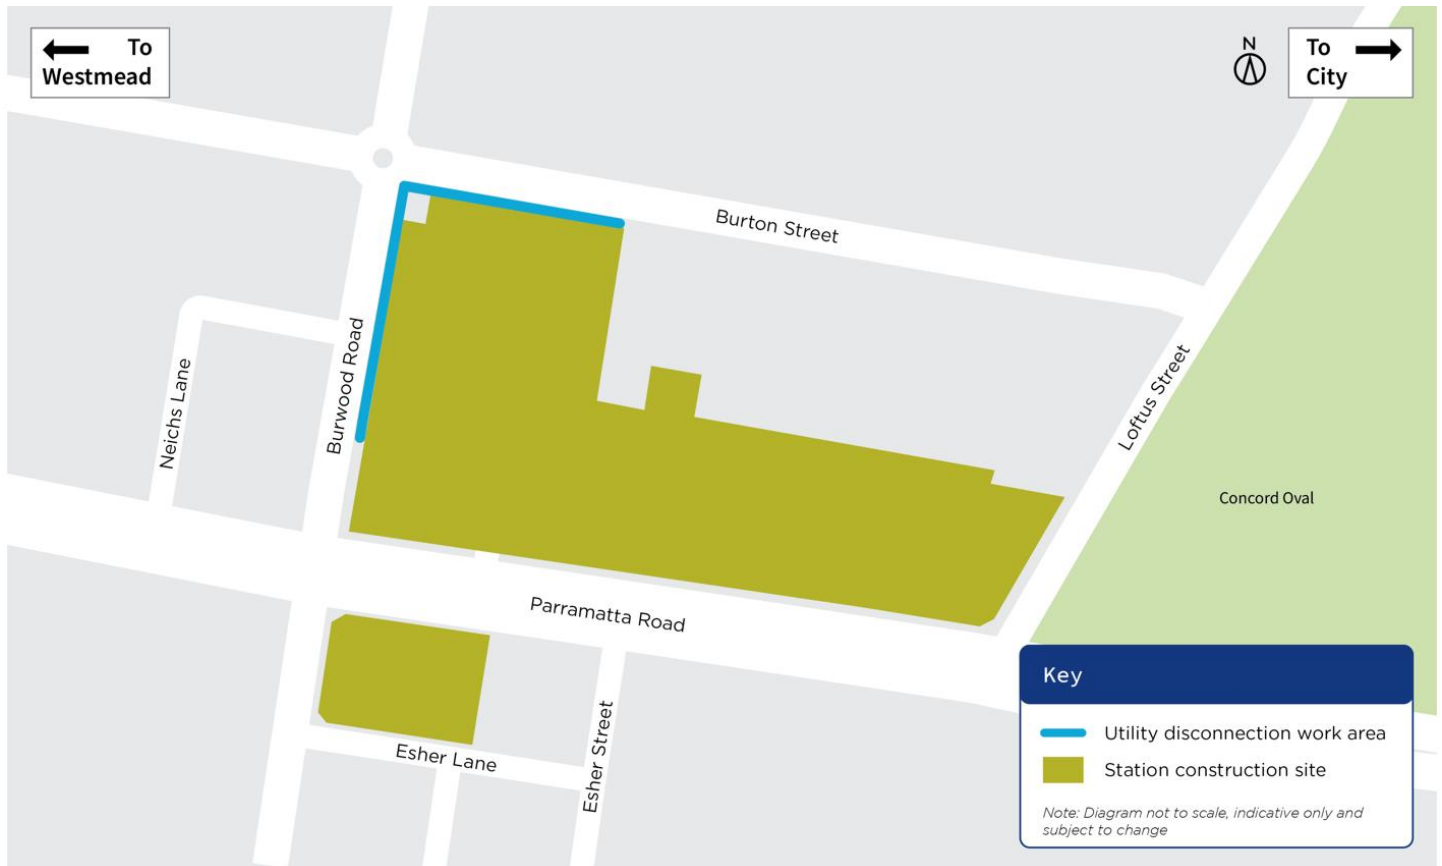

Equipment used for this work includes but is not limited to: trucks, excavators, light vehicles, vacuum suction trucks, elevated work platforms, light vehicles, concrete saws, jack hammers, compressors and hand tools.

Changes to traffic, pedestrian and cyclist routes:

The kerb-side parking lane and footpath on the southern side of Burton Street and the kerb-side parking lane and footpath on the eastern side of Burwood Road will be temporary closed during work hours.

During the work, traffic control will be in place to ensure safety and assist motorists, pedestrians and cyclists with temporary changes to traffic conditions including temporary stop-slow traffic controls, pedestrian detours, footpath closures and partial road (parking lane) closures.

Burwood North Station site - utility disconnection work area

Contact us:

Please contact Liz from the AFJV community team on 1800 612 173 if you have any questions about the project. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to metrotunnelsAFJV@transport.nsw.gov.au and we will add you to the distribution list.

Sydney Metro has launched Sydney Metro Connect - a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Thank you for your cooperation while we complete this essential work.
