

## Notification – Rodd Point

22 November 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Acciona Ferroviaria Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between Sydney Olympic Park and The Bays and excavate five new metro stations.

### Out-of-hours work: Utility investigations at Rodd Point

The tunnelling contractor, AFJV, is undertaking site investigations and early work to assist with planning and design for Sydney Metro West. Investigations are needed to identify the locations of a range of existing underground utilities in the area.

This work must be undertaken outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers. The work will be carried out on **Monday 29 November 2021 between 8pm and 5am** and is expected to take **one (1) night** to complete (weather and site conditions permitting).

**The safety of the community and our workforce is our top priority. All work will be undertaken in line with NSW Public Health Orders, using a range of COVID-safe measures and plans.**

#### The work will include:

- Electronic "wanding" and hand held radar to detect utilities under the surface
- Robotic image capture of powerlines from a moving vehicle
- Utility manhole opening for inspection
- Survey activities for marking of existing utilities

#### What to expect:

- This work is not expected to be noisy
- There will be no disruption to the supply of utility services to your property
- Access to properties will be maintained at all times

### Equipment used:

Equipment used for this work includes but is not limited to: electronic utility detector equipment, light vehicles, utility survey equipment, robotic camera.

### Changes to traffic, pedestrian and cyclist routes:

During the work, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions. This will include contraflow lanes with stop-slow traffic controls and partial road closures.

### Rodd Point utility investigation work area

### Contact us:

Please contact Jeremy from the AFJV community team on 1800 612 173 if you have any questions or would like to provide feedback about the work.. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to [metrotunnelsAFJV@transport.nsw.gov.au](mailto:metrotunnelsAFJV@transport.nsw.gov.au) and we will add you to the distribution list.

Thank you for your cooperation while we complete this essential work.
