

## Construction Update – Rozelle/Iron Cove

1 November 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021. This includes the construction of a new power supply route from Rozelle substation to the future metro station at The Bays. New cables will be laid underground to provide a dedicated power supply source to the Tunnel Boring Machines (TBMs) for Sydney Metro West.

The contract for the Iron Cove/Rozelle power supply route has been awarded to Quickway.

### Construction update – Robert Street

Work on the Iron Cove/Rozelle power supply route began in mid-July and will be undertaken progressively over the coming months.

Trenching work will continue to take place on Robert Street until approximately Saturday 20 November, weather and site conditions permitting. Work will take place outside of standard construction hours, between 6pm and 7am Monday to Saturday. These dates are subject to change, pending weather and site conditions.

Work will involve removing concrete and asphalt with a road saw and excavating trenches to lay new cables underground. Any high impact noisy works, such as hammering, will take place as early in the night as possible.

**The safety of the community and our workforce is top priority. All works will be undertaken in line with NSW Public Health Orders, using a range of COVID-safe measures and plans.**

#### What to expect:

- Construction machinery and equipment operating onsite, inside designated construction sites
- Increased heavy and light vehicle movements in the area
- Work will generate noise and vibration. The team will minimise impacts by providing respite periods from noisy work
- Traffic management and directional signage will be used to ensure the safety of works and the community
- Parking will be temporarily restricted during construction
- Pedestrian access to buildings will be maintained at all times
- Driveway access may be temporarily interrupted during construction. Impacted properties will be notified prior to discuss details
- There will be **no** disruption to the delivery of utility services.

#### Equipment used:

The equipment used will include but not be limited to: excavators, tipper and concrete trucks, sucker trucks, road saws, delivery trucks, traffic control vehicles, lighting towers, hand powered tools and equipment.

## Work area on Robert Street

### Contact us:

Sydney Metro recognises that our work will have impacts and wherever possible we will work with the community to mitigate these impacts.

We will continue to keep you updated on the progress of works in your area. Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Your local Place Manager, Bernice will be your main contact for questions and enquiries regarding the project and can be contacted on 1800 612 173.

**If you would like to receive these updates via email, please contact Bernice who can add you to the distribution list. Our email is:** [sydneymetrowest@transport.nsw.gov.au](mailto:sydneymetrowest@transport.nsw.gov.au)

Thank you for your cooperation while we complete these essential works.

 **1800 612 173** Community information line open 24 hours
