

Notification – Dulwich Hill

December 2021 and end-of-year shutdown

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre. The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

In December, work will continue at Dulwich Hill Station and along the corridor (weather and site conditions permitting). Access to the rail corridor will be via existing rail corridor/pedestrian access gates. **Day work will be undertaken Monday to Friday 7am-6pm and Saturday 8am-6pm.** All work activities are subject to relevant approvals and will be tailored to the evolving Covid-19 situation at the time. The map on page 2 shows location details.

Location	Detail of day work
Dulwich Hill (along the rail corridor)	<ul style="list-style-type: none"> • Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities and fencing • Devegetation and tree clearing throughout the rail corridor where required • Installation of fencing (security, segregation and isolation), signalling equipment, cable service routes, galvanised steel troughing (GST) • Delivery of materials and preparations for upcoming out of hours work • Modification works to bridges along the rail alignment including Albermarle Street bridge
Around Dulwich Hill Station	<ul style="list-style-type: none"> • Earthworks, foundations work and concrete works for construction of the new footbridge. • Service relocations and electrical work (to be undertaken by Ausgrid) • Delivery of materials and preparations for upcoming out-of-hours works • Single lane closure of Wardell Rd Bridge for piling work
Services building site at Ewart Lane	<ul style="list-style-type: none"> • Earthworks, piling and concrete works and construction of the services building • Installation of stormwater drainage, precast panels, landscaping and hardscaping • Crane operation from Ewart Ln and/or Ewart Street for delivery and installation of precast members. <ul style="list-style-type: none"> ○ A road closure for crane delivery will be required and nearby residents will be notified in advance. • Car park reconstruction (Ewart Lane car park will be closed from 2 August 2021 until mid-2022) • Delivery of materials and preparations for upcoming out-of-hours works through Ewart Lane
Substation site (off Randall Street behind Albermarle Street, Marrickville)	<ul style="list-style-type: none"> • Bulk excavation including jackhammering and rock sawing • Traffic control to facilitate trucks movements from Livingstone Road into Randall Street • Formwork reinforcement and concrete pouring • Vegetation removal within the site and rail corridor • Installation of conduits and drainage pipes and pits, cable support, and perimeter columns • Installing building columns and perimeter columns • Installation of precast concrete footings into trenching installed in the rail tracks • Switchroom installation and bulk power supply installation into traction substation (TSS) • Driveway boxout to subgrade then build up to the underside of the asphalt to roads standards

** From time to time we may finish work later than 6pm as we complete concrete pours. This may continue until 10pm on up to four separate evenings during the month. The noise impacts will be low.*

End-of-year T3 shutdown

The T3 Bankstown Line will be closed between Sydenham and Birrong from **26 December 2021 to 9 January 2022** for upgrade work. Opal enabled rail replacement bus services will be provided during this time. You can plan your trip at transportnsw.info and on real time apps from mid - December. Kerbside changes will also be in place around the affected train stations for temporary bus zones. Please check signage before parking your car.

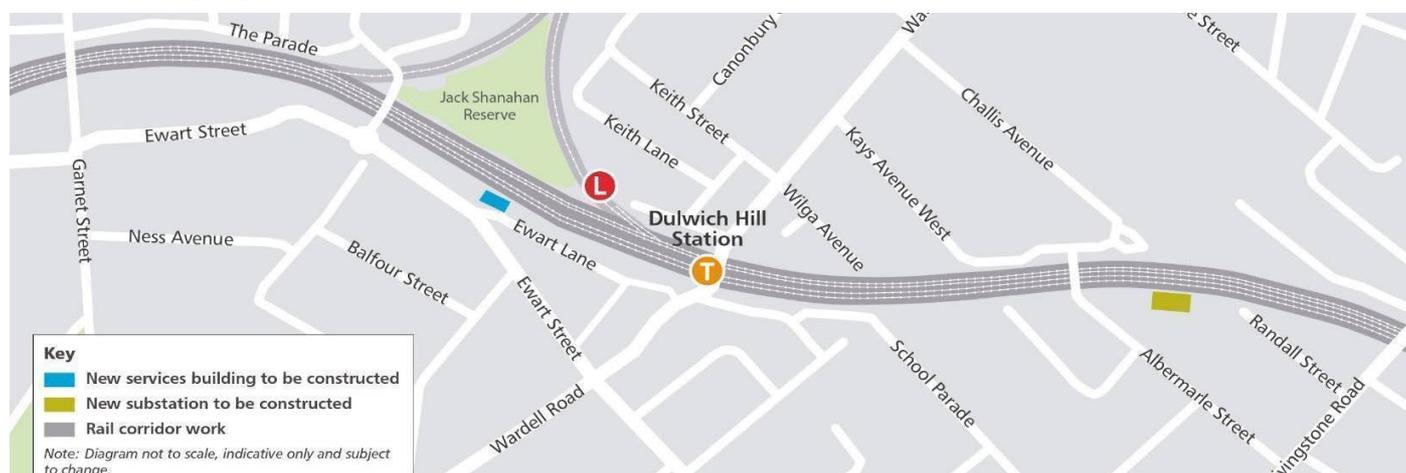

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties in proximity to scheduled work will be notified prior to work starting. Planned out-of-hours work is outlined in the table over the page.

Date / time	Detail of out-of-hours work and location
Mid-week works between 6pm and 7am Monday 29 November to Friday 24 December 2021 (for no more than 3 nights per week)	<ul style="list-style-type: none"> • Installation of signal equipment and various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities and fencing
Weekend rail possession: From 10pm Friday 17 December to 5am Monday 20 December 2021	<ul style="list-style-type: none"> • Service relocation and platform services investigations • General concreting work, steel fixing and constructing stormwater drainage • Geotechnical investigation, general earthwork, detailed excavation and structural work • Renovations to upgrade the station concourse and existing platform buildings • Construction of the future services building • Piling work on Wardell Road bridge for installation of anti-throw screens (single lane closure and detours will be in place) • Underline construction near the Dulwich Hill substation including sleeper and clip removal, excavation, local plant movements, potential rock hammering, conduits and CSR, backfill and compaction, sleeper installation, clipping up and tamping • Various site investigation and survey including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for utilities and fencing
End-of-year rail shutdown: From Sunday 26 December 2021 to Monday 10 January 2022	<ul style="list-style-type: none"> • Work will continue 24/7 • Rail replacement bus services will be provided during this period • More detail will be provided in upcoming notifications

Equipment used for the above work will include excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, sucker trucks, delivery vehicles, borehole drillers, rollers, generators, plate compactors, dump trucks, wood chippers, mulchers, grass cutters, telehandlers, drilling rigs, lifting machinery, elevated work platforms, bobcats, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, water carts, chainsaw, vibrating plates, and hand and power tools.

Access to buildings and driveways will be maintained at all times. There may be some noise, dust and vibration impacts associated with these works which at times will be loud and disruptive. We will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Chris** or email LinewideMetro@transport.nsw.gov.au. For all other works please ask for **Claire** or email SouthwestMetro@transport.nsw.gov.au. **Thank you for your cooperation while we complete this essential work.**
