

Notification – St Marys

15 November 2021

Sydney Metro is Australia's biggest public transport project.

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport.

The railway will service the new airport and airport business park, the Western Sydney Aerotropolis, Luddenham, Orchard Hills and St Marys – here customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

The safety of the community and our workforce is our top priority. All works will be undertaken in line with Public Health Orders, using a range of COVID-safe measures and plans. We will continue to keep the community updated about any further changes to Sydney Metro construction activities.

Geotechnical investigations: Forrester Road and Harris Street car park, St Marys

Geotechnical investigations will be carried out in St Marys to assist with the planning and design of the Sydney Metro – Western Sydney Airport station at St Marys.

Work is expected to start on **Monday 22 November 2021 and will continue for up to one week**, weather and site conditions permitting and pending NSW Health advice. Ongoing groundwater monitoring and sampling activities will be undertaken at these two locations, on a monthly basis over the next six months, and will take approximately one hour to complete.

Work will be completed during standard construction hours Monday to Friday 7am to 6pm and Saturday and Sunday 7am to 6pm. Residents and businesses will be notified in advance of any out-of-hours work. Please see map overleaf to inform work location.

Work will include:

- Collecting groundwater data from existing wells at these locations, and using handheld groundwater monitoring tools

What to expect:

- An increase of light vehicles near the work sites
- Access to driveways and buildings will be maintained at all times

Equipment used:

Equipment for this work may include but is not limited to: data logger equipment, support truck and light vehicles.

Work area

Cabling work: Harris Street car park, St Marys

Our colleagues at Transport for NSW are removing, relocating, and installing underground cables through the rail corridor and around the Harris Street commuter car parks, to support the Sydney Metro – Western Sydney Airport project.

To assist with these works, six car spaces will be removed from the southern section of the Harris Street car park from Tuesday 16 November to Wednesday 24 November 2021. A further 28 car spaces will be removed for approximately one day on Saturday 20 November 2021 to facilitate the completion of the site compound.

Signage has been installed to notify car park users and the community of these changes. Access to St Marys station will be maintained via Harris Street and Forrester Road. Access to the multi-storey commuter car park remains unchanged.

Changes to traffic and pedestrian and cyclist routes:

During the work, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions. This may include contraflow traffic flow and stop-slow traffic controls. The times of these changes will vary and are dependent on road authority approvals.
