

Notification – Belmore

End-of-year shutdown and January 2022

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre. The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

The T3 Line between Sydenham and Bankstown will be closed from 26 December 2021 to 10 January 2022 for upgrade work.

To maximise the amount of work that can be done when trains aren’t running, work will continue at Belmore Station and along the rail corridor 24/7 throughout the shutdown period from 6am Sunday 26 December 2021 to 5am Monday 10 January 2022. **Some of this work will be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers.** All work activities are subject to relevant approvals. The map on page 2 shows location details.

Location	Detail of end-of-year shutdown and January 2022 work
Belmore (along the rail corridor)	<ul style="list-style-type: none"> • Installation of segregation fencing and drainage pits within the rail corridor • Installation of fencing, cable service routes, galvanised steel troughing (GST) and rail access pads • Refurbishment activities to over-wiring structures including removal of redundant footings and structures • Devegetation and tree clearing throughout the rail corridor where required • Delivery of plant and material including preparatory activities for upcoming out-of-hours work • Modification to bridges along the alignment including Belmore Oval underbridge. Pedestrian access will be maintained at all times • Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing • Works associated with new retaining wall within the rail corridor • Inspections and survey of track activity • Signal test and commissioning using work tray
Around Belmore Station and at the services building site (off Redman Parade, adjacent to the rail line)	<ul style="list-style-type: none"> • Delivery and removal of material to and from the Redman Parade site compound • Drainage, utility work and combined services route work at services building site on Redman Parade • Removal of up to three trees along Redman Parade at the rail corridor entry • Landscaping work on either side of the station precinct • Station platform building renovation work, and installation of tactile and tiling work • Piling work for anti-throw screen • Installation of galvanised steel troughing (GST) trough on post continued • Installation of concrete panels on the station platform and concrete pouring for the furniture footings • Installation of drainage system on Platforms 1 and 2 • Form, set-up electrical and mechanical pits • Backfilling and preparation for asphalt • Way finding work in station precinct, including painting directions and signage on platform and floors • Cleaning platform wall and storm water drainage • Installation of two new bi-folding doors at the station entrance • Installation of structural steel for condenser room • Brick work for condenser room • Installation of light post and fittings • Mechanical, electrical and plumbing work for station building • Installation of radio repeater by the utilities provider
Lakemba substation, north of The Boulevard, west of Taylor Street	<ul style="list-style-type: none"> • Bulk and detailed excavations • Installing site amenities • Bringing in and removing material from the site • Reinstating the perimeter fence and tree trimming and removal as required • Traffic control to facilitate truck movements on The Boulevard • Installation of conduits and drainage • Trench excavation and backfill

Replacement buses

Opal enabled rail replacement bus services will be provided during this time. You can plan your trip at transportnsw.info and on real time apps from mid - December. Kerbside changes will also be in place around the affected train stations for temporary bus zones. Please check signage before parking your car.

January 2022

Following the rail shutdown period, work will continue throughout January (weather and site conditions permitting). Access to the rail corridor will be via existing rail corridor/pedestrian access gates. **Day work will be undertaken Monday to Friday 7am-6pm and Saturday 8am-6pm.**

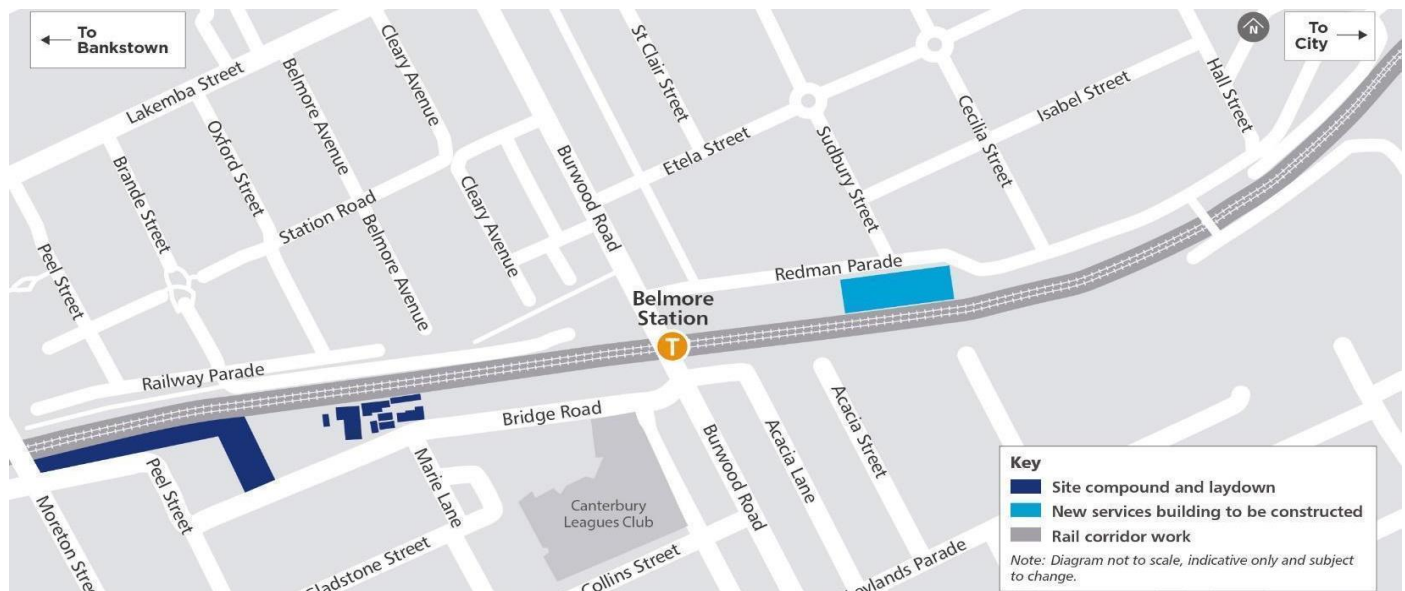

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties in proximity to scheduled work will be notified prior to work starting. Planned out-of-hours work following the shutdown are detailed in the table below.

Date / time	Detail of January out-of-hours work and location
Mid-week work between 6pm and 7am Monday 10 January to Monday 31 January 2022 (no more than 3 nights per week)	<ul style="list-style-type: none">• Installation of signal equipment and cable pulling• Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing• Delivery of plant and material including preparatory activities for upcoming out-of-hours work• Commencement of Formwork reinforcement and concrete pouring (FRP) works
Upcoming midweek and weekend rail possessions	<ul style="list-style-type: none">• 31 January – 3 February 2022• 4 – 6 February 2022 More detail will be provided in upcoming notifications

Equipment used for all the above work will include excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, sucker trucks, delivery vehicles, borehole drillers, rollers, generators, whacker packers, dump trucks, wood chippers, mulchers, grass cutters, telehandlers, drilling rigs, lifting machinery, elevated work platforms, bobcats, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaw, water carts, vibrating plates, and hand and power tools.

Access to buildings and driveways will be maintained at all times. There may be some noise, dust and vibration impacts associated with these works which at times will be loud and disruptive. We will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Chris** or email LinewideMetro@transport.nsw.gov.au. For all other works please ask for **Rachel** or email SouthwestMetro@transport.nsw.gov.au. **Thank you for your cooperation while we complete this essential work.**
