

Notification – North Strathfield

13 December 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Acciona Ferrovia Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including a station at North Strathfield.

Out-of-hours work around North Strathfield metro station site

The tunnelling contractor, AFJV, is undertaking utility investigations around the North Strathfield metro station site to prepare for construction which is due to start next year. Utility investigation work along Queen, Beronga and Wellbank streets and Concord Road must be undertaken outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers. Night work will be carried out **between 8pm and 5am on Monday 20 December and Tuesday 21 December 2021** (weather and site conditions permitting).

The work will include:

- Closed circuit television (CCTV) inspection and cleaning of drainage and sewer lines
- Saw cutting narrow trenches in concrete or asphalt and removing material with a vacuum suction truck to expose and record utility locations
- Electronic wand and survey activities for detection and recording of existing utility locations
- Reinstating sites when work is completed

What to expect:

- There will be some noise associated with this work but we will try to minimise this as much as possible
- During out-of-hours work, the noisiest activities will be completed by midnight on Concord Road, Queen Street and Wellbank Street to minimise noise impacts later at night
- No sawcutting will be required on Beronga Street
- Noise blankets will be used to minimise disturbance
- **There will be no disruption to the supply of utility services to your property**
- Traffic management will be in place to manage traffic and pedestrian access
- Property access will be maintained at all times

Please note our sites will be closed for the holidays with the last day of work being **Thursday 23 December 2021** and work resuming on **Tuesday 4 January 2022**.

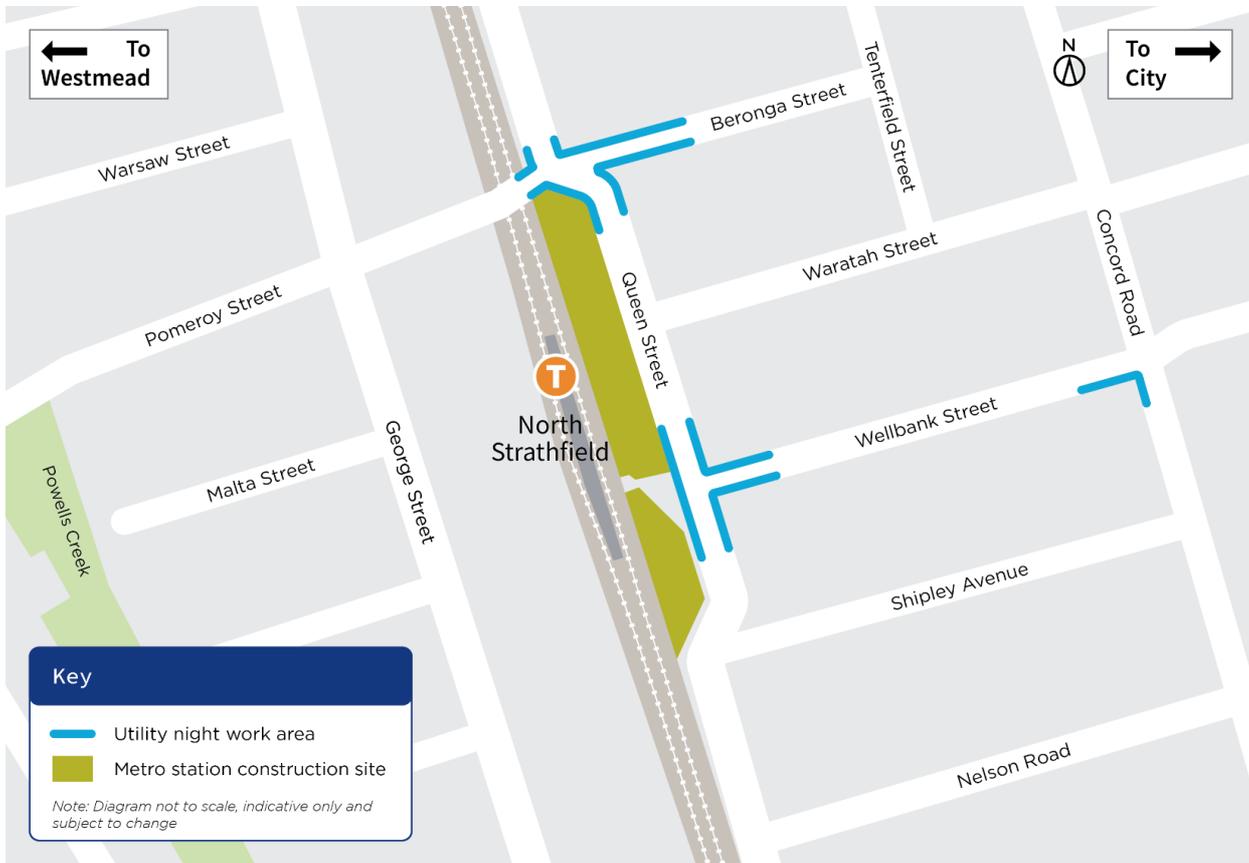

Equipment used:

Equipment used for this work includes but is not limited to: vacuum suction trucks, electronic service detector equipment, light vehicles, concrete saws, excavator, plate compactors, CCTV truck, water jet truck and hand tools.

Changes to traffic, pedestrian and cyclist routes:

Traffic control will be in place to assist motorists, pedestrians and cyclists with temporary changes to traffic conditions including stop-slow traffic controls and partial road and footpath closures on Queen, Beronga and Wellbank streets as well as on Concord Road.

North Strathfield metro station site utility work area

Contact us:

Please contact Liz from the AFJV community team on 1800 612 173 if you have any questions, complaints or would like to provide feedback about the work, including appropriate respite periods. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to metrotunnelsAFJV@transport.nsw.gov.au and we will add you to the distribution list.

Sydney Metro has launched Sydney Metro Connect - a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Thank you for your cooperation while we complete this essential work.
