

Notification – Burwood North

20 December 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres. Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Acciona Ferroviaria Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including Burwood North Station.

Construction work at Burwood North Station sites

The tunnelling contractor, AFJV, is undertaking utility and geotechnical investigations around the two Burwood North Station sites to prepare for major construction which is due to start in January next year. Some temporary fencing will be installed around the northern station site to secure the area prior to the holiday period. This work will continue until **Thursday 23 December 2021**, at which point the site will close for the holidays with work resuming on **Tuesday 4 January 2022**.

A summary of work planned for January is provided below. Unless otherwise specified, this work will occur during standard construction hours:

- Monday to Friday 7am – 6pm and Saturday 8am – 1pm

More information will be provided when dates are confirmed and if any of this work needs to occur outside standard construction hours.

Work planned for January 2022:

- Installation of temporary fencing around the sites from 4 January 2022 for around two (2) weeks
- Disconnection of utilities to Sydney Metro owned properties
- Internal strip out of Sydney Metro owned properties from mid January 2022 for around four (4) weeks. This includes removal of any recyclable and/or hazardous materials within the buildings
- Utility relocation work from late January 2022
- Removal of awnings from Sydney Metro owned properties along Parramatta Road and Burwood Road from late January 2022, followed by installation of hoarding and structural demolition of the buildings in February 2022.

What to expect:

- There will be some noise associated with this work but we will try to minimise this as much as possible
- Noise blankets will be used where appropriate to minimise disturbance
- Specialist containment and removal of any asbestos or other hazardous materials found in the Sydney Metro owned properties will follow the SafeWork NSW Code of Practice for Demolition Work
- Traffic management will be in place to safely manage traffic and pedestrian access during the work
- Property and business access will be maintained at all times.

Community information session:

An in-person community drop-in session near the Burwood North Station sites will be held in February 2022 with more information to be provided in January.

Changes to traffic, pedestrian and cyclist routes:

Traffic control will be in place to assist motorists, pedestrians and cyclists with temporary changes to traffic conditions including stop-slow traffic controls, partial road and footpath closures and contra-flow on Burwood Road, Burton Street, Loftus Street, Esher Lane and Parramatta Road.

Burwood North Station work area

Contact us:

Please contact Liz from the AFJV community team on 1800 612 173 if you have any questions about the project. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to metrotunnelsAFJV@transport.nsw.gov.au and we will add you to the distribution list.

Sydney Metro has launched Sydney Metro Connect - a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Thank you for your cooperation while we complete this essential work.
