

Notification – Burwood North

4 January 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres. Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Acciona Ferroviaria Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including Burwood North Station.

Out-of-hours work near Burwood North Station site

The tunnelling contractor, AFJV, is undertaking utility investigations and early work around the two Burwood North Station sites to prepare for the start of major construction. Work to disconnect utility services to Sydney Metro owned properties and inspect stormwater and sewage lines must be carried out outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers.

Night work will be carried out **between 8pm and 5am on Tuesday 11, Wednesday 12, Friday 14, Tuesday 18, Thursday 20 and Friday 21 January 2022** (weather and site conditions permitting).

The work will include:

- Closed circuit television (CCTV) inspection and cleaning of drainage and sewer lines
- Saw cutting narrow trenches in concrete or asphalt and removing material with a vacuum suction truck to expose and record utility locations
- Electronic wand and survey activities for detection and recording of existing utility locations
- Reinstating sites when work is completed

What to expect:

- The noisiest activities such as saw cutting will be completed by 10pm on Burwood Road and midnight on Parramatta Road to minimise noise impacts later at night
- Noise blankets will be used to minimise disturbance
- There will be no disruption to the supply of utility services to your property
- Traffic management will be in place to manage traffic and pedestrian access
- Property access will be maintained at all times
- Workers will temporarily use Sydney Metro owned properties on the station site for amenities and parking

Equipment used:

Equipment used for this work includes but is not limited to: vacuum suction trucks, electronic service detector equipment, light vehicles, concrete saws, excavator, plate compactors, CCTV truck, water jet truck and hand tools.

Changes to traffic, pedestrian and cyclist routes:

Traffic control will be in place to assist motorists, pedestrians and cyclists with temporary changes to traffic conditions including stop-slow traffic controls and partial road and footpath closures on Parramatta and Burwood Roads during the work.

Burwood North Station site utility night work area

Contact us:

Please contact Liz from the AFJV community team on 1800 612 173 if you have any questions, complaints or would like to provide feedback about the work, including appropriate respite periods. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to metrotunnelsAFJV@transport.nsw.gov.au and we will add you to the distribution list.

Sydney Metro has launched Sydney Metro Connect - a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Thank you for your cooperation while we complete this essential work.
