

Notification – Sydney International Speedway, Eastern Creek

December 2021 and January 2022

A new world-class speedway for Western Sydney

The NSW Government is delivering a world class speedway within Western Sydney Parklands' Precinct 5: Eastern Creek Motor Sports which will be an exciting addition to the existing motorsport precinct and create a Motorplex destination for international, national and local racing events.

The new speedway will be a key contributor to the NSW economy and support tourism in Western Sydney, bringing in interstate and overseas competitors, crews and spectators.

Planning approval was granted for construction of the Sydney International Speedway in December 2020 and major works commenced in January 2021.

Speedway construction

Work will continue to take place at the Sydney International Speedway site on Ferrers Road and in the area south of Ferrers Road known as Pipeline Park. See map overleaf for work locations.

Work will take place during standard construction hours:

- **Monday to Friday 7am to 6pm and Saturday 8am to 6pm**
- **Sunday and Public Holidays 8am to 6pm.**

Work will pause over the Christmas shutdown period between Saturday 25 December 2021 and Tuesday 4 January 2022, however equipment deliveries may occur during this time.

Out-of-hours work:

Essential road work on North South Link Road and Competitor Access Road is being undertaken outside of standard construction hours to minimise traffic impacts. The work will be carried out from **Monday 13 December to Friday 17 December, between 6pm and 7am**, weather and site conditions permitting.

Work will be undertaken in accordance with current NSW Government advice. Social distancing, travel and hygiene measures will continue to be implemented in accordance with Public Health Orders to protect employees and members of the community.

Work activities will involve:

- Construction of car parks
- Excavation and earthworks
- Delivering materials to the site
- Construction of the grand stand
- Construction of a new ticket office for Sydney Dragway
- Construction of utility routes
- Construction of the speedway track
- Testing and commissioning of the site
- Asphaltting internal roads
- Landscaping

What to expect:

- This work will generate some noise but impact is expected to be minimal
- Increased truck movements in the area.

Changes to traffic:

The southern site gate (across from Pipeline Park) is currently being used for some trucks and cars entering and exiting the site. If required, traffic control and directional signage may be in place to assist motorists, pedestrians and cyclists.

Equipment used:

Equipment used for this work includes but is not limited to: excavators, dozers, scrapers, graders, compactors, dump trucks, cranes, road trucks, water cart, street sweepers, concrete trucks and pumps, rollers, pavers, lighting towers, and an auger drill.
