

The new Sydney International Speedway at Western Sydney Parklands' Precinct 5

Amended operational hours

Operational hours of the new speedway have been amended from 10pm, as originally identified in the approved Environmental Impact Statement, to 11pm following a Consistency Assessment process. The Consistency Assessment is available in the Document Library at sydneymetro.info

An 11pm finish time will allow full completion of the racing program. The potential impacts of this change in operating hours were assessed via a Consistency Assessment process. This Consistency Assessment determined the impact of the additional hours was consistent with the project's approval and there would be no additional impact to the community.

The operator of the new speedway has also identified noise management measures which are available through Links/Forms on their website easterncreekspeedway.com.au

Racing events at the new Sydney International Speedway will typically be on Saturdays with gates opening around 2pm and racing in the early evening between 6pm and up to 11pm.
