

Notification – Sydney Olympic Park

2 December 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Acciona Ferrovia Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including a station at Sydney Olympic Park.

Utility work: Sydney Olympic Park

The tunnelling contractor, AFJV, is undertaking utility investigations and early work around the Sydney Olympic Park metro station site to prepare for construction starting in January next year (see map overleaf). Work to disconnect utility services to Sydney Metro owned properties and inspect stormwater and sewerage lines will be carried out from **Thursday 9 December 2021** and is expected to continue for up to **two (2) weeks** (weather and site conditions permitting). Work will occur during standard construction hours:

- Monday to Friday 7am – 6pm and Saturday 8am – 1pm

The work will include:

- CCTV inspection and cleaning of drainage and sewer lines with a water jet truck
- Saw cutting narrow trenches in concrete or asphalt and removing material with a vacuum suction truck to expose and disconnect any existing underground power, water, gas and sewer utilities
- Electronic wand and survey activities for detection and recording of existing utility locations
- Reinstating the area after work is complete

What to expect:

- There will be some noise associated with this work but we will try to minimise this as much as possible
- High intensity noisy work such as concrete cutting or jack-hammering will not start before 8am
- Noise blankets will be used to minimise disturbance
- **There will be no disruption to the supply of utility services to your property**
- Traffic management will be in place to safely manage traffic and pedestrian access
- Property access will be maintained at all times
- Workers will temporarily use Sydney Metro owned properties for amenities and parking

Please note our site will be closed for the holidays with the last day of work being **Thursday 23 December 2021** and work resuming on **Tuesday 4 January 2022**.

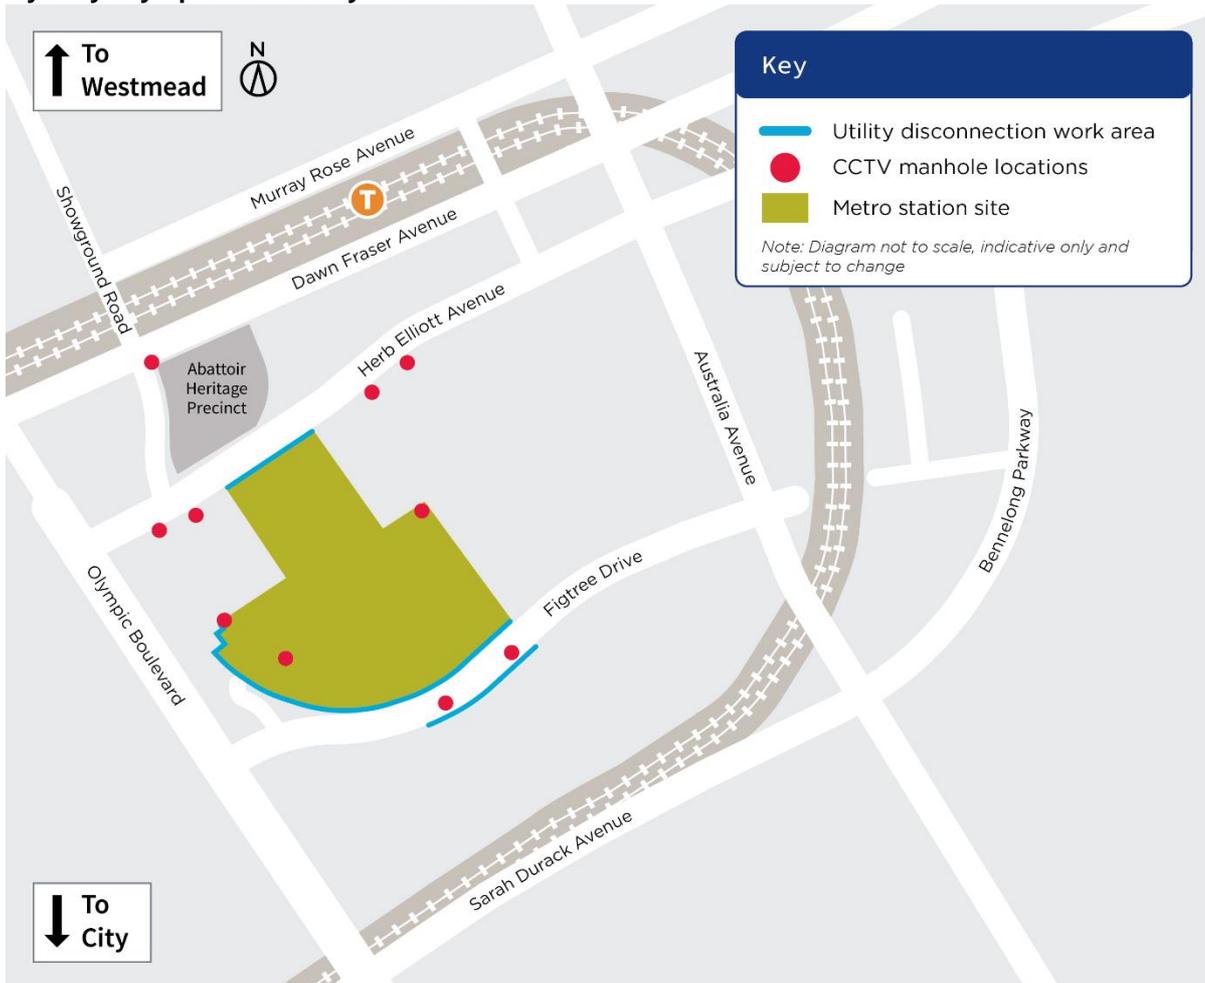

Equipment used:

Equipment used for this work includes but is not limited to: truck or track mounted drilling rigs, small trucks, light vehicles, sucker trucks, small concrete mixers and hand tools.

Changes to traffic, pedestrian and cyclist routes:

The kerb-side parking lane and footpath on the southern side of Herb Elliott Avenue and the kerb-side parking lane and footpath on the northern side of Figtree Drive will at times be temporarily closed during work hours. During the work, traffic control will be in place to ensure safety and assist motorists, pedestrians and cyclists with temporary changes to traffic conditions including temporary stop-slow traffic controls, temporary pedestrian detours, partial footpath closures and parking lane closures.

Sydney Olympic Park utility work area

Contact us:

Please contact Kim from the AFJV community team on 1800 612 173 if you have any questions about the project. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to metrotunnelsAFJV@transport.nsw.gov.au and we will add you to the distribution list.

Sydney Metro has launched Sydney Metro Connect - a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play. Thank you for your cooperation while we complete this essential work.
