

Project update – Barangaroo Station

February and March 2021

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 kilometre standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

John Holland CPB Ghella (JHCPBG) is building the 15.5 kilometre long twin railway tunnels between Chatswood and Sydenham and excavating six new metro stations, including one at Barangaroo.

Barangaroo Station – upcoming work

Similar work from last month will continue at the Barangaroo Station site through February and March. Key activities will include building stairwells and concrete structures that will house operational systems for the new station and metro trains. Concreting activities will also continue in the underground crossover cavern.

Out of hours deliveries of oversize precast beams will begin in early March. These beams are made of steel-reinforced concrete and will form the cover of the future Barangaroo Station.

The Barangaroo foreshore reinstatement and landscaping work will also continue through February and March. In coming weeks, work will involve excavation, drainage and installation of timber boardwalks and sandstone. Once completed, pedestrian access will be reopened between Nawi Cove and Barangaroo South.

The table below provides more information about construction hours and activities planned for February and March 2021 (see map overleaf). All activities are weather and site conditions permitting.

Location	24/7 activities
Inside acoustic shed – Hickson Road	<ul style="list-style-type: none"> • Deliveries of concrete, materials, machinery and equipment
Crossover cavern - under Hickson and Dalgety roads	<ul style="list-style-type: none"> • Tying steel and concreting activities
Barangaroo Station - Hickson Road (between Dalgety Road bridge and High Steps)	<ul style="list-style-type: none"> • Tower and mobile crane operations (to midnight) • Deliveries of materials, plant, equipment and precast beams • Concrete finishing work and scaffolding • Formwork, tying steel and concreting activities
Location	Activities during standard construction hours (Monday to Sunday, 7am–6pm)
Barangaroo Station - Hickson Road (between Dalgety Road bridge and High Steps)	<ul style="list-style-type: none"> • Tower and mobile crane operations • Deliveries of materials, plant, equipment and precast beams • Concrete finishing work and scaffolding • Formwork, tying steel and concreting activities
Nawi Cove and foreshore	<ul style="list-style-type: none"> • Reinstatement work involving earthworks, tying steel, installing drainage, concreting and landscaping

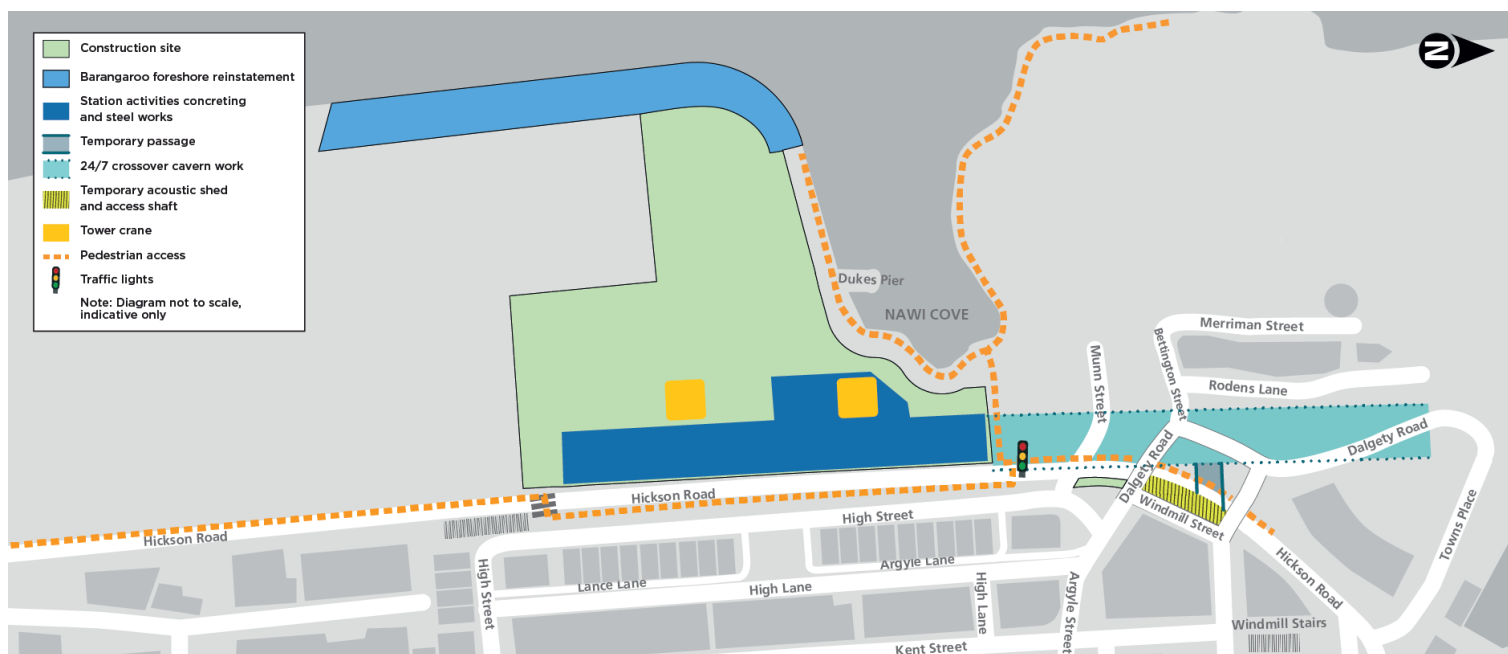

What to expect

- There will be intermittent periods of noisy work. If any high impact noise activities such as saw cutting and hammering are required at night, they will be carried out as early as possible and will stop before midnight.
- Non-tonal reversing beepers will be used where feasible and workers will be instructed to keep noise to a minimum.
- Temporary lighting may be used to ensure a safe work site and will be directed away from properties.
- There will be increased light vehicle and truck movements.
- Equipment used includes drills, tower cranes, vacuum excavation trucks, mobile cranes, elevated work platforms, remote-controlled trailers, concrete saws, grinders, concrete pumps, excavators and compactors.
- There will be temporary single lane closures on Hickson Road during out-of-hours work. Traffic control and directional signage will be in place for the safety of workers and the community.
- Access to the High Steps, Nawi Cove and Barangaroo Reserve will be maintained at all times.
- Access to properties will be maintained at all times.
- Permanent restoration of roads and footpaths affected by the works will be undertaken at the end of the project.

Thank you for your cooperation while we complete this essential work.
