

# Notification – Campsie

February 2022

## Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre. The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

### In February, work will continue along the corridor and at Campsie station (weather and site conditions permitting)

Access to the rail corridor will be via existing rail corridor/pedestrian access gates. Work will be undertaken **Monday to Friday 7am-6pm** and **Saturday 8am-6pm**. All work activities are subject to relevant approvals and will be tailored to the evolving Covid-19 situation at the time. The map on page 2 shows location details.

Location	Details of work during standard construction hours (daytime)
Campsie (along the rail corridor)	<ul style="list-style-type: none"> <li>Site investigations and surveys including (but not limited to) non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing</li> <li>Removal of trees and vegetation throughout the rail corridor where required</li> <li>Installation of fencing, signalling equipment and cable service route work (using galvanised steel troughing)</li> <li>Delivery of construction machinery and material including associated activities to prepare for upcoming out-of-hours work</li> <li>Modification and upgrade work to bridges along the rail alignment including Wairoa Street including changes to traffic conditions:               <ul style="list-style-type: none"> <li>Temporary lane closures along Wairoa Street between South and East Parade from 6am Monday 7 February 2022 for a period of four (4) weeks</li> </ul> </li> <li>Remediation work on bridges along the rail alignment including Beamish Street Overbridge</li> <li>Installing in-ground services (including electrical and communications conduits)</li> </ul>
Around Campsie Station	<ul style="list-style-type: none"> <li>Delivery of construction materials and machinery, including associated activities to prepare for the new roof canopy installation</li> <li>Erecting temporary hoarding and fencing for works on station concourse</li> <li>Installing the new structural roof canopy and roofing on Beamish Street and station concourse</li> <li>Renovation works to the Campsie Concourse and platform buildings</li> <li>Paving and landscaping work around the Campsie Station Precinct</li> <li>Installing in-ground services (including electrical and communications conduits)</li> </ul>
Services building site at Lillian Lane opposite Dewar Street	<ul style="list-style-type: none"> <li>Installation of precast flooring for the new Metro Services Building</li> <li>Mobilisation and demobilisation of plant and materials</li> <li>Installation of structural steel frames</li> <li>Inground services installation such as electrical and communications conduits</li> <li>Preparation of site for upcoming weekend and shutdown possessions</li> </ul>
Substation site (Off Lillian Street)	<ul style="list-style-type: none"> <li>Installation of conduits and drainage pipes and pits, and preparation and installation of steel facade</li> <li>Traffic controllers to facilitate trucks movements on Lillian Street</li> <li>Installation of cable supports, building, and perimeter columns, and steel screens</li> <li>Switchroom installation and bulk power supply installs into traction substation (TSS)</li> <li>Excavation, installation of road base and placement of asphalt on the substation site driveway</li> <li>Installation of precast concrete footings in the rail corridor and a steel screen at substation site</li> </ul>

*From time to time we may finish work later than 6pm as we complete concrete pours. This will entail finishing off poured concrete using manual and powered floats and may continue until 10pm. This may occur on up to four separate evenings during the month. The noise impacts will be very low.*

### Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties close to scheduled work will be notified prior to work starting. Planned out-of-hours work following the shutdown are detailed in the table on the next page.

Date / time	Details of out-of-hours (including night) work
Mid-week works 6pm to 7am between <b>Monday 7 February and Friday 4 March 2022</b> (for no more than 3 nights a week)	<ul style="list-style-type: none"> <li>• Site investigations and surveys including (but not limited to) non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing</li> <li>• Delivery of construction machinery and material including associated activities to prepare for upcoming out-of-hours work</li> </ul>
<b>Upcoming midweek works and weekend rail possessions:</b> <ul style="list-style-type: none"> <li>• <b>31 Jan - 3 Feb 2022</b></li> <li>• <b>4-7 February 2022</b></li> </ul>	<ul style="list-style-type: none"> <li>• Delivery of construction machinery and material including associated activities to prepare for upcoming work.</li> <li>• Line marking and tactile paving and installation</li> <li>• Cable services route work (including galvanised steel troughing posts and structures)</li> <li>• Installation of inground services (including electrical and communications conduits)</li> <li>• Mechanical, electrical and hydraulic work on station buildings and station platforms</li> <li>• New structural roof canopy and roofing on Beamish Street and concourse</li> <li>• Beamish Street paving works and associated activities to prepare for upcoming out-of-hours work</li> <li>• Installation of cable service routes, high voltage pit installation and rail access pads</li> <li>• Removal of trees and vegetation throughout the rail corridor where required</li> <li>• Delivery of plant and material including associated activities to prepare for upcoming out-of-hours work</li> <li>• Modification to bridges along the alignment along Wairoa Street Bridge and Duke Street footbridge. Temporary traffic changes include: <ul style="list-style-type: none"> <li>○ Temporary full road closure of Wairoa Street (underbridge) between Wairoa Street and East Parade. Vehicle diversions will be in place via Moore Parade Clissold Parade Beamish Street and South Parade</li> <li>○ Access to pedestrians will be maintained</li> </ul> </li> </ul>

Equipment used for the above work will include excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, sucker trucks, delivery vehicles, borehole drillers, rollers, generators, plate compactors, dump trucks, wood chippers, mulchers, grass cutters, telehandlers, crane trucks, drilling rig, lifting machinery, elevated work platforms, bobcats, concrete pumps, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, water carts, chainsaw, vibrating plates, and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work will be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using quieter equipment where possible (e.g. using non-tonal reversing beepers). There may also be some dust and vibration impacts associated with these works. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

### Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Chris** or email [LinewideMetro@transport.nsw.gov.au](mailto:LinewideMetro@transport.nsw.gov.au). For all other works please ask for **Claire** or email [SouthwestMetro@transport.nsw.gov.au](mailto:SouthwestMetro@transport.nsw.gov.au). **Thank you for your cooperation while we complete this essential work.**

 **1800 171 386** Community information line open 24 hours
