

Notification – Five Dock

4 April 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Acciona Ferrovial Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including a station at Five Dock.

The safety of the community and our workforce is our top priority. All work will be undertaken in line with NSW Public Health Orders, using a range of COVID-safe measures and plans.

Out-of-hours utility survey work at Five Dock

The tunnelling contractor, AFJV, is finalising utilities survey work around the Five Dock Station construction sites and will be conducting stormwater investigation survey work along Great North Road and Rodd Road (see map overleaf). This work needs to be undertaken at night to minimise interruption to traffic and to ensure the safety of motorists, pedestrians, cyclists and workers.

Survey work will be carried out on **Monday 11 April and Tuesday 12 April 2022 between 10pm and 5am** (weather and site conditions permitting), with wet weather contingency on **Wednesday 13 April 2022**.

The work will include:

- Opening stormwater drains to insert closed circuit television (CCTV) cameras for inspection and survey
- Clearing drains with a water jet if they are blocked to allow CCTV inspection
- Closing of access points upon completion

What to expect:

- There will be some noise associated with this work but we will try to minimise it as much as possible
- The surveyors will be at each location for around 60 minutes

Equipment used:

Equipment used for this work includes but is not limited to: CCTV van, jetting truck, light vehicles, hand tools, safety equipment.

Changes to traffic, pedestrian and cyclist routes:

Traffic control personnel will be in place to safely assist motorists, pedestrians and cyclists with temporary changes to traffic conditions at each location. This may include contraflow lanes, stop-slow traffic controls and partial road or footpath closures.

Five Dock out-of-hours work area

Contact us:

Please contact Jeremy from the AFJV community team on **1800 612 173** if you have any questions or would like to provide feedback about the work, including appropriate respite periods. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to metrotunnelsAFJV@transport.nsw.gov.au and we will add you to the distribution list.

Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Thank you for your cooperation while we complete this essential work.
