

Notification – Five Dock

22 April 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021. Acciona Ferrovia Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including a station at Five Dock.

Out-of-hours scaffolding installation and temporary exclusion zone at Fred Kelly Place

AFJV is demolishing buildings on the western Five Dock Station construction site. To ensure safety during demolition of the building adjoining Fred Kelly Place, a temporary exclusion zone will be set up within a section of Fred Kelly Place for up to a week in early May 2022 (see map overleaf). More information will be provided when the timing of this work has been confirmed.

Before this demolition work can go ahead, some tree branches will need to be trimmed and scaffolding will be installed along the property boundary. A temporary exclusion zone will also be required for this work, which will be undertaken at night to minimise impacts on pedestrians and users of Fred Kelly Place.

Pruning of tree branches along the property boundary will be carried out on **Friday 29 April 2022 between 7pm and 5am** (weather permitting).

Installation of demolition scaffolding will then be carried out on **Monday 2, Tuesday 3 and Thursday 5 May 2022 between 6pm and 6am** (weather permitting).

Removal of demolition scaffolding will be carried out on **Monday 16 May 2022 between 6pm and 6am** (weather permitting) after the building demolition is complete.

The work will include:

- Pruning overhanging branches along the property boundary to allow installation of demolition scaffolding (trees have been assessed by an arborist and one will be present on site during the pruning work)
- Installing demolition scaffolding along the property boundary within the Sydney Metro owned construction site
- Removing the scaffolding when the demolition work is complete

What to expect:

- There will be some noise associated with this work but we will try to minimise it as much as possible
- Tree pruning will be done with electric pole saws to reduce noise
- Temporary safety fencing will be installed each night at Fred Kelly Place and the playground will be closed during the night shift work hours only
- Temporary safety fencing will be removed and playground opened every morning after the completion of each shift.

Equipment used:

Equipment used for this work includes but is not limited to: electric pole saws, drills, ratchet guns, screw guns, circular saws, safety fencing, light towers.

Changes to traffic, pedestrian and cyclist routes:

There will be no access to the playground and public toilet in Fred Kelly Place while the temporary exclusion zone is in place (see map below). Pedestrian access through Fred Kelly Place and access to businesses will be maintained at all times.

Five Dock out-of-hours work area

Contact us:

Please contact Jeremy from the AFJV community team on **1800 612 173** if you have any questions or would like to provide feedback about the work. We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to **metrotunnelsAFJV@transport.nsw.gov.au** and we will add you to the distribution list.

Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play. Thank you for your cooperation while we complete this essential work.
