

# Notification – Punchbowl to Bankstown

May 2022

## Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre. The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

**In May, work will continue along the corridor and at Punchbowl station (weather and site conditions permitting).** Work will be undertaken Monday to Friday 7am-6pm and Saturday 8am-6pm. All work activities are subject to relevant approvals and will be tailored to the evolving Covid-19 situation at the time. The map on page 2 shows location details.

**As a result of industrial action at Sydney Trains, a range of planned activities that require power isolation along the Bankstown Line have been postponed. This work will be rescheduled for a future rail shutdown.**

Location	Details of work during standard construction hours (daytime)
Punchbowl to Bankstown (along the rail corridor)	<ul style="list-style-type: none"> <li>• Site investigations and surveys including (but not limited to) non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing.</li> <li>• Removal of trees and vegetation throughout the rail corridor where required.</li> <li>• Works associated with installation of fencing, high voltage pits, and cable service routes.</li> <li>• Modification and upgrade work to bridges along the rail alignment including Stacey Street bridge</li> <li>• Delivery of plant and material including preparatory activities for upcoming out-of-hours work.</li> </ul>
Punchbowl Station and surrounding areas & Concourse	<ul style="list-style-type: none"> <li>• Installation of internal and external cladding on concourse building</li> <li>• Cleaning of station building facade and cladding</li> <li>• Installation of facade finishes including doors, parapet flashing and cappings for wall waterproofing</li> <li>• Station and concourse building fit out including painting, fixtures and tiles</li> <li>• Landscaping works to Boulevard side of Punchbowl Station</li> <li>• Concreting works to Lift Linking slabs</li> </ul>
Services building site off Urunga Parade, adjacent to the rail line	<ul style="list-style-type: none"> <li>• Combined service route construction and installation of drainage</li> <li>• Landscaping and associated activities</li> <li>• Main building works including retaining wall construction, structural steel and footings work, in-ground services work</li> <li>• Delivery of roof canopy on concourse and platform</li> <li>• Building services rough-in and roofing work</li> <li>• Sewer and cold water installation on Urunga Parade - Staged Partial closure of Urunga Parade</li> </ul>
Punchbowl substation, off South Terrace near Scott Street	<ul style="list-style-type: none"> <li>• Site amenities installation, general site mobilisation, tree clearing and trimming when required.</li> <li>• Excavation (including trenching) and moving materials to and from site.</li> <li>• Removal of barriers and installation of conduits and drainage.</li> <li>• Drainage work on South Terrace and site investigation of existing services</li> <li>• Installation of electric power distribution infrastructure in the rail corridor.</li> <li>• Formwork reinforcement and concrete pouring.</li> </ul>

*From time to time we may finish work later than 6pm as we complete concrete pours. This will entail finishing off poured concrete using manual and powered floats and may continue until 10pm. This may occur on up to four separate evenings during the month. The noise impact will be low.*

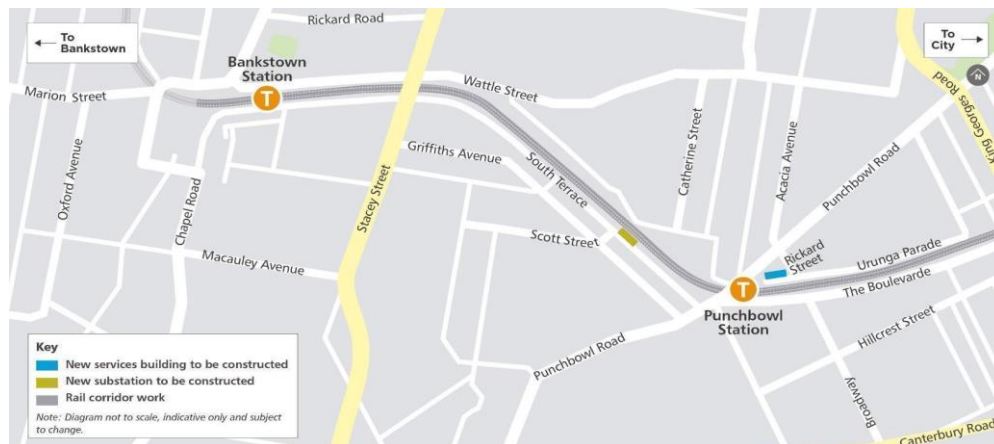

### Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties in proximity to scheduled work will be notified prior to work starting. Planned out-of-hours work following the shutdown are detailed in the table below.

Date / time	Details of out-of-hours (including night) work
Mid-week between <b>6pm and 7am Monday 2 May to Friday 3 June 2022</b> (for no more than 3 nights per week)	<ul style="list-style-type: none"> <li>• Site investigations and surveys including (but not limited to) non-destructive digging, soil assessments, geotechnical investigations and surveys for utilities and fencing</li> <li>• Delivery of plant and material and associated activities to prepare for upcoming work.</li> <li>• Concrete works associated with installing galvanised steel troughing, new cable routes and bridge upgrades.</li> </ul>
<b>Upcoming rail possessions;</b>  <b>Saturday 7 May to Monday 9 May 2022</b>	<ul style="list-style-type: none"> <li>• Concourse Structural steel installation</li> <li>• Lift Installation</li> <li>• Delivery of plant and equipment and activities to prepare for upcoming work</li> <li>• Galvanised Steel Troughing post and trough installation in rail corridor</li> <li>• Concreting works</li> <li>• External cladding and window installation within concourse building</li> <li>• Installation of brickwork for mechanical service rooms</li> <li>• High level containment installation</li> <li>• Installation of cable service routes, HV pits, underline crossings and rail access pads</li> <li>• Refurbishment activities to over-wiring structures including removal of redundant footings and structures</li> <li>• Modification and upgrade works to culverts and bridges along the rail alignment along Stacey Street bridge including: <ul style="list-style-type: none"> <li>○ Temporary alternate lane closure along Stacey Street Bridge.</li> </ul> </li> </ul>

Equipment used for the above work will include excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, sucker trucks, delivery vehicles, borehole drillers, rollers, generators, whacker packers, dump trucks, wood chippers, mulchers, grass cutters, telehandlers, crane trucks, drilling rigs, lifting machinery, elevated work platforms, bobcats, concrete pumps, cable pulling equipment, compactors, lighting towers, forklifts, chainsaw, water carts, vibrating plates, crane 400T, franna crane, elevated work platform, concrete pump, excavator and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

## Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Chris** or email [LinewideMetro@transport.nsw.gov.au](mailto:LinewideMetro@transport.nsw.gov.au). For all other works please ask for **Claire** or email [SouthwestMetro@transport.nsw.gov.au](mailto:SouthwestMetro@transport.nsw.gov.au).

**Thank you for your cooperation while we complete this essential work.**
