

Notification – Sydney International Speedway, Eastern Creek

1 April 2022

A new world-class speedway for Western Sydney

The NSW Government is delivering a world class speedway within Western Sydney Parklands' Precinct 5: Eastern Creek Motor Sports which will be an exciting addition to the existing motorsport precinct and create a Motorplex destination for international, national and local racing events.

The new speedway will be a key contributor to the NSW economy and support tourism in Western Sydney, bringing in interstate and overseas competitors, crews and spectators.

On Friday 25 February 2022, the management of the site was handed over to the operator, Speedway Promotions, and is being operated under the name Eastern Creek Speedway.

Speedway construction:

Work is nearing completion at the speedway site and in the area south of Ferrers Road known as Pipeline Park. During April, finishing and landscaping works will be carried out, as well as demobilising plant and equipment.

Work will take place during standard construction hours:

- **Monday to Friday 7am to 6pm and Saturday 8am to 6pm**
- **Sunday and Public Holidays 8am to 6pm.**

All works will be undertaken in line with NSW Public Health Orders, using a range of COVID-safe measures and plans.

Work activities will involve:

- Finishing works on the grandstand, ancillary facilities and car parks
- Demobilising site buildings, equipment and materials
- Landscaping.

What to expect:

- This work will generate some noise but impact is expected to be minimal
- Increased truck movements in the area.

Changes to traffic:

The southern site gate (across from Pipeline Park) is currently being used for some trucks and cars entering and exiting the site. If required, traffic control and directional signage may be in place to assist motorists, pedestrians and cyclists.

Equipment used:

Equipment used for this work includes but is not limited to: excavators, dozers, scrapers, graders, compactors, dump trucks, cranes, road trucks, water cart, street sweepers, lighting towers, elevated work platforms and an auger drill.
