

May notification – Westmead

28 April 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Stations have been confirmed at Westmead, Parramatta, Sydney Olympic Park, North Strathfield, Burwood North, Five Dock, The Bays, Pyrmont and Hunter Street in the Sydney CBD.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021.

Construction work at Westmead

Construction work at the Westmead metro station site and site investigations in the surrounding area will continue throughout May 2022. This work will be completed during standard construction hours **Monday to Friday 7am to 6pm and Saturday 8am to 6pm**. If noise intensive works are required to be undertaken after 1pm on Saturday, a separate notification will be issued.

All work will be undertaken in line with NSW Public Health Orders, using COVID safe measures and plans.

Out of hours work:

Transport for NSW is undertaking enabling work within the rail corridor at Westmead Station to prepare the site for the construction of Sydney Metro. This work has been scheduled to take place during Sydney Trains trackwork periods where trains are not running, minimising disruptions to commuters. Work will be carried **out between 6am until 6pm Sunday 1 May, 6am Saturday 21 until 6pm Sunday 22 May, 6am Saturday 28 until 6pm Sunday 29 May**.

Removal of a large excavator will occur the week commencing 2 May 2022 outside standard construction hours between 8pm to 5am. This is in line with Road Occupancy Licence requirements and Transport for NSW requirements for the movement of oversized vehicles.

Work will involve:

- Site and vegetation clearing
- Disconnecting utility services.
- Demobilising/relocating site amenities.
- Delivering materials to site including machinery and equipment
- Removing materials from site including demolition waste, building and hazardous materials
- Non-intrusive cadastral field surveys consisting of surveying fences, structures along boundaries, survey marks and boundary pegs.

All hazardous material removal work is being undertaken in accordance with SafeWork NSW guidelines.

What to expect:

- This work will generate some noise and the team will minimise impacts where possible
- Increased vehicle movements to and from site including small to large trucks
- Delivery vehicles will access site via Alexandra Avenue, Bailey Street and Hassall Street
- Traffic control and directional signage will be in place for safety of workers and the community
- Environmental measures will be in place to mitigate construction impacts including noise and vibration monitoring and dust suppression
- Access to pathways and buildings will be maintained at all times
- Parking may be temporarily restricted in some locations.

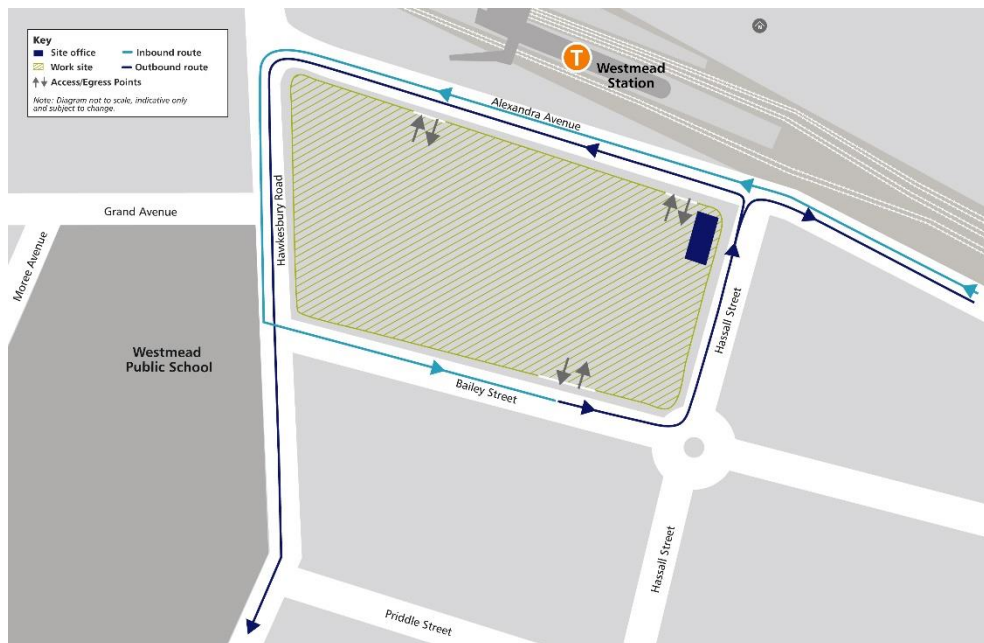

Equipment used:

Equipment used for this work includes but is not limited to bobcats, excavators, bin trucks, scissor lifts, survey equipment, skid steer and hand tools.

Changes to traffic pedestrian and cyclist routes:

During the work, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions. This may include contraflow traffic flow, stop-slow traffic controls, or partial road closures.
