

## Notification – Clyde and surrounds

24 May 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres. Stations have been confirmed at Westmead, Parramatta, Sydney Olympic Park, North Strathfield, Burwood North, Five Dock, The Bays, Pyrmont and Hunter Street in the Sydney CBD.

Gamuda Australia and Laing O'Rourke Consortium (GLC) has been awarded the contract to deliver the Western Tunnelling Package which involves nine kilometres of twin metro rail tunnels between Westmead and Sydney Olympic Park, excavation for two new metro stations, a stabling and maintenance facility at Clyde and a precast facility at Eastern Creek.

### Construction work at Clyde – June

Work at the Clyde stabling and maintenance facility site, and surrounding areas will be ongoing throughout June (see map overleaf for work locations).

This work will be carried out during standard construction hours, **between 7am and 6pm Monday to Friday and 8am to 6pm on Saturdays**. Noisier works after 1pm on Saturdays will be notified for separately if required

#### Works will include:

- Ongoing structural demolition and clearing
- Surveying local roads and nearby streets to record their existing condition
- Conducting geotechnical investigations to assess ground conditions and to monitor groundwater
- Conducting utility investigations including potholing and removing redundant services on Wentworth, Kay, Unwin and Shirley Streets and diverting sewer services at the corner of Shirley and Unwin Streets
- Excavating to prepare for guide walls
- Activities for site establishment including:
  - Installing fencing, hoarding and signage to prepare work areas
  - Installing site amenities including lunch sheds, office sheds and portable toilet facilities
  - Constructing site access at an existing site entry point on the north-west corner of Unwin Street
  - Installing environmental controls including sediment control fencing.

**Permanent road closure:** Deniehy Street, Tennyson Street and the northern part of Wentworth Street will be permanently closed from **Tuesday 14 June** as they will form part of the Clyde Stabling and Maintenance Facility site, see map for details.

#### What to expect:

- Some activities will generate noise, but this will be minimised as much as possible
- Access to property and businesses will be maintained at all times
- Increased traffic during delivery of machinery and equipment
- Signage and traffic control will be in place to assist motorists, pedestrians and cyclists with changes to traffic conditions. This may include contraflow traffic flow, stop-slow traffic controls, or partial road closures.

#### Equipment used:

Equipment used for this work will include but is not limited to hand tools, survey equipment, light vehicles, drill rigs, excavators, backhoes, vacuum excavation trucks, tipper trucks, vibratory roller, chainsaws, mulchers and temporary fencing.

**Out-of-hours deliveries** Oversized equipment is planned to be delivered outside of standard work hours from **mid-June** to early **July**. This work is required to be undertaken at night to minimise impacts to motorists and the community. We will notify you again once delivery details are confirmed.

## Location of work

## Contact us

We will continue to keep you updated about works in your area. Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Your Place Manager for Sydney Metro West at Clyde is Olivia. Olivia is your main contact for questions about the project and can be contacted on 1800 612 173 or at [metrotunnelsGLC@transport.nsw.gov.au](mailto:metrotunnelsGLC@transport.nsw.gov.au).

Thank you for your cooperation while we complete these essential works.
