

Project notification

12 May 2022

Sydney Metro is Australia's biggest public transport project

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central. By 2024, Sydney will have 31 metro railway stations and a 66-kilometre standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

BESIX Watpac has been awarded the contract to build Barangaroo Station. BESIX Watpac will deliver the station fit-out and associated landscaping and civil works, including the re-alignment of Hickson Road.

Systems Connect (an unincorporated joint venture between CPB Contractors and UGL Limited) is delivering line-wide work which includes installing metro rail track, power systems, communications and infrastructure to turn the excavated tunnels into a working railway between Chatswood and Sydenham.

Barangaroo station emergency work out-of-hours

As part of ongoing work to relocate utilities and install services under Hickson Road, the BESIX Watpac team will be undertaking emergency work out-of-hours this weekend.

Due to the number of utilities in the location and unstable ground conditions as a result of the recent inclement weather, Hickson Road will be partially or fully closed between Towns Place and Barton Street so we can undertake emergency work to ensure the ongoing stability of the road. The construction hours and road closure details are:

- **Friday 13 May, between 7pm and 5am (Saturday 14 May) – single lane open, with traffic control in place**
- **Saturday 14 May, between 8am and 5pm – single lane open, with traffic control in place**
- **Saturday 14 May, between 7pm and 5am (Sunday 15 May) – Hickson Road closed**

The work will include trenching at the northern end of the project site, next to 25 Hickson Road. Some of this work may be occasionally noisy, involving heavy plant and equipment such as excavators with jackhammers.

We understand this is an inconvenience for our direct neighbours. If you are affected by our construction and have any questions or complaints, please contact us on 1800 171 386 (24-hour community information line) or email barangaroometrostation@transport.nsw.gov.au.

Traffic detour and changes to bus stops

During the Hickson Road closure between Towns Place and Barton Street, a traffic detour will be in place via Towns Place, Dalgety Road, Kent Street and Napoleon Street. Bus services 311, 324 and 325 will be rerouted via this detour.

 If you need an interpreter, contact TIS National on **131 450** and ask them to call **1800 171 386**

During the road closures there will be some changes to bus stops along Hickson Road and Towns Place, including temporary bus stops on Kent Street, Argyle Street and Hickson Road at Walsh Bay. These bus stops will service the 311, 324 and 325 bus services. There will be signage in place to help passengers.

For more information about the overnight temporary changes to the bus routes 311, 324 and 325 please visit [Transport for NSW trip planner website](#).

Barangaroo Station work area

Thank you for your ongoing patience and cooperation while we complete this important work.
