

Notification – Claremont Meadows

13 May 2022

Sydney Metro is Australia’s biggest public transport project.

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport.

The railway will service the new airport and airport business park, the Western Sydney Aerotropolis, Luddenham, Orchard Hills and St Marys – here customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

The Sydney Metro – Western Sydney Airport project has received planning approval from both the Australian and NSW Governments and construction started in 2020. Major construction, including station excavation, is set to start in late 2022.

CPB Contractors Ghella Joint Venture (CPBGJV) was awarded the tunnelling contract for Sydney Metro – Western Sydney Airport in December 2021.

The safety of the community and our workforce is our top priority. All works will be undertaken in line with Public Health Orders, using a range of COVID-safe measures and plans. We will continue to keep the community updated about Sydney Metro construction activities.

Site establishment: Corner of Gipps Street and Great Western Highway

We are continuing our geotechnical works in Claremont Meadows. Work is expected to continue from **Friday 20 May 2022** and will **continue for up to six weeks**, weather and site conditions permitting.

Additional works will start from **early June 2022** and will **continue for up to six weeks**, weather and site conditions permitting. This work will be carried out during standard construction hours Monday to Friday 7am to 6pm and Saturday 8am to 1pm. Surrounding businesses and residents will be notified in advance of any out-of-hours work. Please see map overleaf to inform the work location.

Work will include:

- Establishing temporary site compound including fencing, hoarding, grass maintenance and environmental investigations and controls
- Stockpiling of materials
- Drilling with borehole rig and excavation of ground for test pits

Additional work will include:

- Vegetation clearing
- Site levelling excavation
- Temporary road installation
- Stormwater drainage installation
- Temporary site utilities including trenching

The **following works** will be undertaken as part of **Sydney Metro’s enabling works program**:

- Removal of stockpile material from site. Any hazardous material (hazmat) will be handled, removed, transported and disposed of in accordance with SafeWork NSW and Environment Protection Authority (EPA) guidelines, as well as Sydney Metro’s health and safety procedures.

What to expect:

- Increased traffic including heavy vehicles entering and leaving site
- Minimal disruption to traffic and pedestrians.

Equipment used:

Equipment for this work includes but is not limited to barriers, drill rig, excavator, mulcher, articulated dump trucks, bobcat, roller, grader, ride-on mower, utility scanning and survey equipment and light vehicles.

Changes to traffic, pedestrian and cyclist routes:

During the work, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions. This may include contraflow traffic flow and stop-slow traffic controls. The times of these changes will vary and are dependent on road authority approvals. Access to driveways and buildings will be maintained at all times.

Contact us:

Your local Place Manager for Sydney Metro – Western Sydney Airport is Laura McCarthy. Laura will be your main contact for questions and enquiries regarding the project and can be contacted on **1800 717 703**.

If you'd like to receive these updates by email, please contact Laura who can add you to the distribution list. Our email is sydneymetrowsa@transport.nsw.gov.au. Thank you for your cooperation while we complete these essential works.
