

Notification – Construction update

27 June 2022

Sydney Metro is Australia's biggest public transport project

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021. This includes the construction of a new power supply route from Rozelle substation to the future metro station at The Bays. New cables will be laid underground to provide a dedicated power supply source to the Tunnel Boring Machines (TBMs) for Sydney Metro West.

The contract for the Iron Cove/Rozelle power supply route has been awarded to Quickway.

Construction update – McCleer Street, Rozelle

Work on the Iron Cove/Rozelle power supply route is continuing to progress with about 97 per cent of the conduit installation work now complete. We have also successfully installed the new cable from Manning Street through to Mansfield Street, Rozelle.

We have previously installed access pits with metal lids on McCleer Street. In response to community feedback regarding the steel lids in the roadway, we will be upgrading the steel lids to concrete lids. We will start this work from Monday 4 July 2022 and expect that it will take one week to complete, weather and ground conditions pending.

Work will be undertaken during approved construction hours, Monday to Friday 7am to 6pm and Saturday 8am to 6pm. Please find map over the page with more information about our work.

During this work McCleer Street between Springside Street and Moodie Street will be closed with resident access only. A signed detour will be in place.

Work will involve:

- Establishing traffic controls and construction areas
- Removing the existing pit, including excavation around the existing pit
- Installing the new pit and concrete lid
- Backfilling and reinstating the area

What to expect

- Construction machinery and equipment operating onsite, inside designated construction sites
- Increased heavy and light vehicle movements in the area
- The work will generate some noise and vibration, the team will minimise impacts where possible
- Traffic management and directional signage will be used to ensure the safety of works and the community
- Parking will be temporarily restricted during construction
- Pedestrian management and footpath changes will occur, however, pedestrian access to buildings will be maintained at all times.

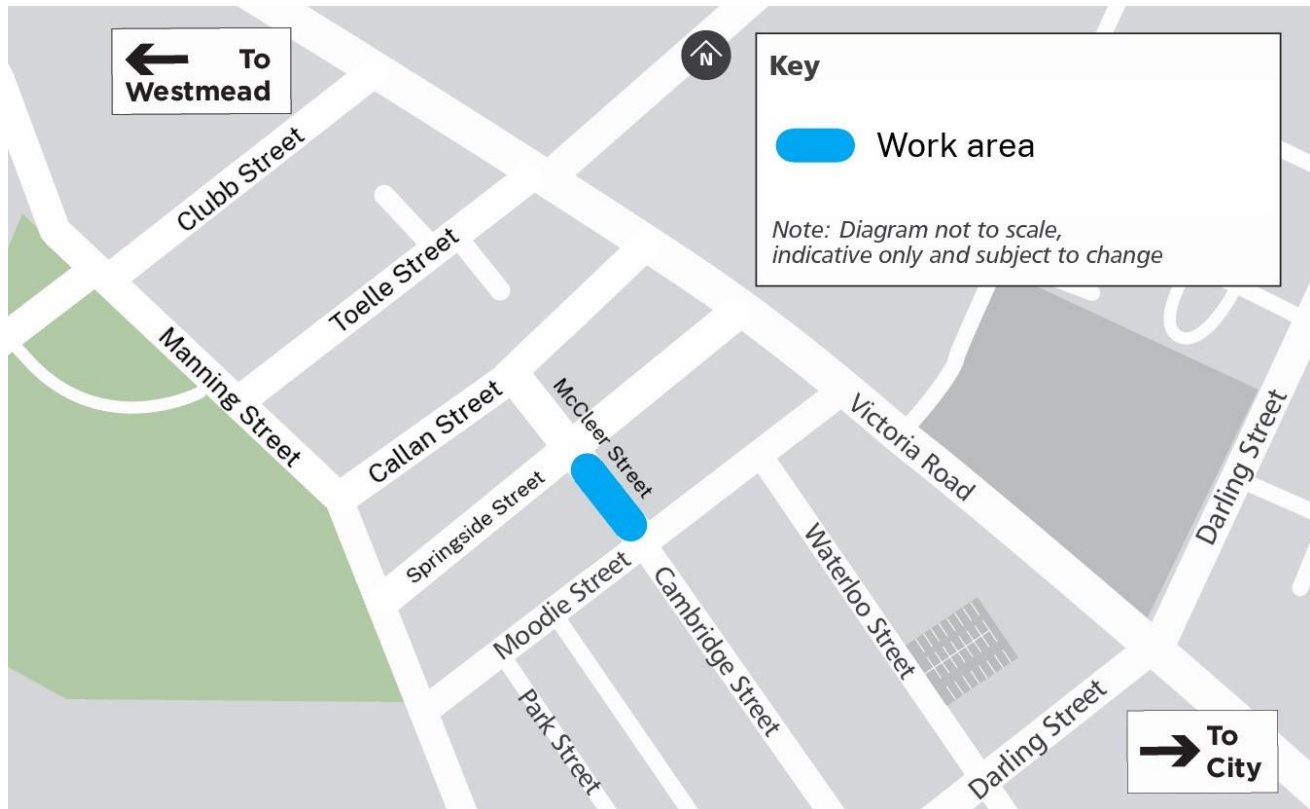

Equipment used

The equipment used will include but not be limited to excavators, tipper trucks, sucker trucks, road saws, traffic control vehicles, compressors, hand powered tools and equipment.

Changes to pedestrian and cycle routes

During the work, changes to traffic conditions for pedestrians, cyclists, parking and motorists will be required and may include stop-slow traffic controls, temporary road closures and detours. This will include the closure of McCleer Street, near Moodie Street. Pedestrian access on McCleer Street will be maintained. Residents will be able to access their properties with traffic control assistance. These changes will vary and are dependent on road authority approvals. Traffic control will be in place to assist motorists, pedestrians and cyclists.

Work area

Contact Us

Sydney Metro recognises that our work will have impacts and wherever possible we will work with the community to mitigate these impacts. We will continue to keep you updated on the progress of works in your area. Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Your local Place Manager, Nelson will be your main contact for questions and enquiries regarding the project and can be contacted on 1800 612 173. If you would like to receive these updates via email, please contact Nelson who can add you to the distribution list. Our email is: sydneymetrowest@transport.nsw.gov.au

Thank you for your cooperation while we complete these essential works.
