

Notification – Clyde and surrounds

13 July 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres. Stations have been confirmed at Westmead, Parramatta, Sydney Olympic Park, North Strathfield, Burwood North, Five Dock, The Bays, Pyrmont and Hunter Street in the Sydney CBD.

Gamuda Australia and Laing O'Rourke Consortium (GLC) has been awarded the contract to deliver the Western Tunnelling Package which involves nine kilometres of twin metro rail tunnels between Westmead and Sydney Olympic Park, excavation for two new metro stations, a stabling and maintenance facility at Clyde and a precast facility at Eastern Creek.

Construction work at Clyde

Tunnelling contractor, GLC will continue works at Clyde and surrounds to prepare for site establishment (see map overleaf for work locations).

Out-of-hours work

To minimise interruption to local traffic and to ensure the safety of motorists, pedestrians and workers, out-of-hours work activities are planned for July and August, weather permitting.

Out-of-hours works will involve:

- Construction of a diaphragm wall in preparation of shaft excavation and tunnelling works at Rosehill Services Facility from **Thursday 21 July to late November 2022**. Excavation will be undertaken **Monday to Friday, 24 hours a day**.
- Deliveries of oversized equipment to Rosehill Services Facility. Deliveries will enter and exit site via Unwin Street and unload during standard construction hours. This will occur on **two nights** during the period of **Wednesday 13 July and Sunday 17 July 2022** and **one night** during the period of **Wednesday 20 July or Thursday 21 July between 10pm and 5am**.
- Delivery of oversized equipment to Clyde Dive on **one night** during the period of **Wednesday 27 July or Thursday 28 July 2022 between 10pm and 5am**. Deliveries will enter via James Ruse Drive and exit site via Unwin Street and unload during standard construction hours.
- Utility works on Martha Street will continue to **Wednesday 31 August 2022 between 7pm to 5am Sunday to Fridays**. See separate notification for more information.
- Maintenance works will continue on utility assets around the Clyde stabling and maintenance facility. These works may be conducted out-of-hours as required and will be notified separately.

Out-of-hours deliveries are in line with Road Occupancy Licence and Transport for NSW requirements for the movement of oversized vehicles.

Standard construction hours work:

All other work previously notified for July 2022 will be carried out during standard construction hours. Our standard construction hours are from **7am and 6pm Monday to Friday** and **8am to 6pm on Saturdays**. Noisier works after 1pm on Saturdays will be notified separately if required.

To view the July 2022 construction update, visit sydneymetro.info or scan the QR code overleaf.

Pedestrian diversion: Rosehill railway foot bridge will be permanently closed to form part of the Clyde dive and Clyde stabling and maintenance facility. See map below and local signage for new pedestrian access.

What to expect:

- Out-of-hours deliveries to site for four nights to minimise impacts to local community
- Some activities will generate noise, but this will be minimised as much as possible
- Access to property and businesses will be maintained at all times
- Increased traffic during delivery of machinery and equipment
- Signage and traffic control will be in place to assist motorists, pedestrians and cyclists with changes to traffic conditions. This may include contraflow traffic flow, stop-slow traffic controls, or partial road closures.

Equipment used:

Equipment used for this work will include but is not limited to hand tools, cranes, generators, truck and dogs, survey equipment, light vehicles, drill rigs, excavators, concrete agitators, backhoes, vacuum excavation trucks, tipper trucks, vibratory roller, chainsaws, mulchers, temporary fencing, road saw and traffic control devices.

Location of work

Contact us

We will continue to keep you updated about works in your area. Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Your Place Manager for Sydney Metro West at Clyde is Olivia. Olivia is your main contact for questions about the project and can be contacted on 1800 612 173 or at metrotunnelsGLC@transport.nsw.gov.au. Thank you for your cooperation while we complete these essential works.
